*Co-operative Corporations Act, R.S.O. 1990, c. C.35***RECEIPT FOR AN OFFERING STATEMENT****TREC SOLARSHARE CO-OPERATIVE (NO. 1) INC.**

TREC SolarShare Co-operative (No. 1) Inc. (the "Co-operative"), filed an Offering Statement dated May 1, 2023.

As a condition of the Chief Executive Officer issuing a Receipt under subsection 36(1) of the *Co-operative Corporations Act*, the Co-operative has undertaken in accordance with Section 18 of the Offering Statement that:

- a) the Offering Statement will expire on April 30, 2024 and after that date no further securities will be issued unless a new Offering Statement has been filed and receipted;
- b) a copy of the Offering Statement will be given to each prospective investor before payment for securities is accepted by the Co-operative; and
- c) none of the securities issued by the Co-operative pursuant to this Offering Statement will be in bearer form.

A Receipt for the Offering Statement relating to securities to be issued by the Co-operative is hereby issued under subsection 36(1) of the *Co-operative Corporations Act*.

Dated at Toronto, this 23rd day of June, 2023.

Huston LokeExecutive Vice President
Market Conduct Division
By Delegated Authority from the
Chief Executive Officer

This offering document contains important information about the Solar Bonds offered for sale by the Co-operative named below.

You should read the entire Offering Statement before deciding whether or not to purchase these bonds. All prospective purchasers must receive this Offering Statement before completing their purchase.

Offering Statement of
TREC SolarShare Co-operative (No. 1) Inc.
("SolarShare")

May 1, 2023

MAXIMUM TOTAL TO BE RAISED UNDER THIS OFFERING STATEMENT: \$15,000,000

SolarShare is offering Solar Bonds for purchase by residents of Ontario. Prospective individual purchasers of the bonds must first become members of SolarShare. Corporations and organizations may purchase bonds, but are not eligible to be members of SolarShare.

SolarShare is the largest renewable energy co-operative in Canada in terms of membership, investment and asset ownership. It owns and operates a portfolio of 51 solar generation Projects, all of which earn revenues from long-term fixed-rate Feed-In-Tariff (FIT) contracts with Ontario's Independent Electricity System Operator (IESO). These contracts were established with an original term of 20 years under Ontario's Green Energy Act and remain in force.

The majority of SolarShare's capital is in the form of Solar Bonds, with \$39.9 million outstanding as of December 31, 2022. SolarShare also employs long-term debt with a value outstanding of \$11.6 million, described in Section 13 and 16.7 or 16.8 below. Any cash flow surplus after the payment of interest and repayment of principal on Solar Bonds and other debt will be assigned to the TREC Renewable Energy Cooperative (TREC) Renewable Energy Fund, which will be used to develop additional community-owned renewable energy facilities.

Proceeds from Solar Bond issuance will be used to refinance existing debt as it comes due, including maturing Solar Bonds, and to make new acquisitions of solar or ancillary electric services from time to time and for any period(s) of time should such opportunities with government backed organizations.

This Offering Statement describes fifteen Solar Bonds: a three-year bond earning 3% annual simple interest, a three-year bond earning 3.5% annual simple interest, a three-year bond earning 4% annual simple interest, a three-year bond earning 4.5% annual simple interest, a three-year bond earning 5% annual simple interest, a four-year bond earning 3% annual simple interest, a four-year bond earning 3.5% annual simple interest, a four-year bond earning 4% annual simple interest, a four-year bond earning 4.5% annual simple interest, a four-year bond earning 5% annual simple interest, a five-year bond earning 3% annual simple interest, a five-year bond earning 3.5% annual simple interest, a five-year bond earning 4% annual simple interest, a five-year bond earning 4.5% annual simple interest and a five-year bond earning 5% annual simple interest. In its sole discretion, SolarShare may choose to sell, or not sell, any one

or more of these bonds. SolarShare is not offering Solar Bonds for investment in registered accounts under this Offering Statement.

The securities offered are issued under the Co-operative Corporations Act and are exempt from the requirements of the Securities Act (Ontario). The persons selling these securities are exempt from the registration requirement of the Securities Act (Ontario) and are not required to be licensed by any Government agency.

No official of the Government of the Province of Ontario has considered the merits of the matters addressed in this Offering Statement. Neither the Financial Services Regulatory Authority of Ontario nor any other ministry or agency of the Government of Ontario assumes any liability or obligation to anyone who purchases the securities offered under this Offering Statement.

There is no established market through which these securities may be sold. Due to the characteristics of these securities and the restrictions on their transfer, no such market is likely to develop. The directors of SolarShare have set the price of the securities offered.

The Solar Bonds issued under this Offering Statement are secured by:

- a mortgage of each lease of property where a Project is located, which mortgage is registered in the Land Registry Offices in Ontario where the Projects are located; and
- with respect to each Project, a Security Interest in certain of the assets and personal property of, as applicable, SolarShare and the SPVs, related to the applicable Project, which Security Interest is perfected pursuant to the Personal Property Security Act of Ontario (see Section 9.1 for more details); and
- mortgages of two parcels of land owned by SolarShare upon which Projects are located.

A traditional mortgage is usually applied to appreciating assets such as land, whereas the mortgages registered are on leases, with a fixed term, and depreciating assets (the solar generating facilities). Therefore, prospective purchasers are encouraged to study the cash flow model in Schedule A – Pro Forma Financial Statements, since the cash position of SolarShare is most relevant for the repayment of the principal.

Investors should not rely on any information other than what is contained in this Offering Statement. This is a high-risk investment as there is no guarantee that SolarShare will be able to pay interest or repay any of the Solar Bonds offered under this Offering Statement. Potential buyers should pay careful attention to all the risk factors noted in this Offering Statement. See Section 7 for a description of risk factors.

The information in any projections or pro forma statements contained in this Offering Statement may vary materially from actual results.

This Offering Statement expires on April 30, 2024. No further securities may be issued after this date unless a new Offering Statement is filed and receipted.

1 GLOSSARY, DEFINITIONS AND INTERPRETATION

1.1 Glossary, Definitions

In this Offering Statement, unless the context requires otherwise:

"2-Year Solar Bond" refers to bonds with a term of two years issued by SolarShare, including those being offered under this Offering Statement. **No 2-Year Solar Bonds are being offered under this Offering Statement.**

"3-Year Solar Bond" refers to bonds with a term of three years issued by SolarShare, including those being offered under this Offering Statement.

"4-Year Solar Bond" refers to bonds with a term of four years issued by SolarShare, including those being offered under this Offering Statement.

"5-Year Solar Bond" refers to bonds with a term of five years issued by SolarShare, including those being offered under this Offering Statement.

"15-Year Solar Bond" refers to self-amortizing (regularly paying a fixed amount, comprised of a mixture of principal and interest) bonds with a term of fifteen years previously issued by SolarShare. **No 15-Year Solar Bonds are being offered under this Offering Statement.**

"Act" means the Co-operative Corporations Act (Ontario) and the Regulations thereunder.

"Affiliate Fees" means operating, management and/or contractor fees to an entity associated with SolarShare, provided they do not exceed \$30,000 per annum in aggregate.

"Board" means the board of directors of SolarShare

"Bondholders" means the holders from time to time of Solar Bonds.

"Commercial Operation" means, with respect to each Project, that the Project is mechanically, electrically, and structurally complete and is delivering electricity to the electricity grid.

"Commercial Operation Date" or **"COD"** means the date on which a Project achieved Commercial Operation under the FIT Contract.

"Community Solar Assets 1" or **"CSA 1"** means the Special Purpose Vehicle with the legal name Community Solar Assets 1 Limited that was incorporated to hold some of SolarShare's FIT1 Projects as described in this Offering Statement.

"Community Solar Assets 2" or **"CSA 2"** means the Special Purpose Vehicle with the legal name Community Solar Assets 2 Limited that was incorporated to hold some of SolarShare's FIT 2 Projects, one FIT 3 project and one FIT 4 project as described in this Offering Statement.

"Community Solar Assets 4" or **"CSA 4"** means the Special Purpose Vehicle with the legal name Community Solar Assets 4 Limited that was incorporated to hold some of SolarShare's FIT 3 Projects as described in this Offering Statement.

"Community Solar Assets 5" or **"CSA 5"** means the Special Purpose Vehicle with the legal name Community Solar Assets 5 Limited that was incorporated to a FIT 2 Project as described in this Offering Statement.

“Debt Financing” means senior debt from a long-term commercial debt lender.

“Debt Service Coverage Ratio” or **“DSCR”** means the debt service coverage ratio established by commercial lenders for the CSA 1 and CSA 2 portfolios, and represents the ratio of the Operating Income to the Debt Service Costs for the most recent four consecutive quarter periods.

“Debt Service Reserve Requirement” means an amount equal to up to six months’ (for CSA 1) or twelve months’ (for CSA 2) principal and interest next due on the loan.

“FIT Contract” means an agreement made with the IESO in accordance with the FIT Program, and includes a FIT 1 Contract, a FIT 2 Contract a FIT 3 Contract a FIT 4 Contract and a FIT 5 Contract. SolarShare currently owns Projects with FIT 1 Contracts, FIT 2 Contracts and FIT 3 Contracts.

“FIT 1 Contract” means a FIT Contract with the IESO pursuant to an application made in accordance with the FIT Program, and which is not a FIT 2 Contract, a FIT 3 Contract, a FIT 4 Contract or a FIT 5 Contract.

“FIT 2 Contract” means a FIT Contract with the IESO pursuant to an application made in accordance with the FIT Program between 14 December, 2012 and 18 January, 2013.

“FIT 3 Contract” means a FIT Contract with the IESO pursuant to an application made in accordance with the FIT Program between 4 November 2013 and 13 December, 2013.

“FIT 4 Contract” means a FIT Contract with the IESO pursuant to an application made in accordance with the FIT Program between 5 October, 2015 and 23 October, 2015.

“FIT 5 Contract” means a FIT Contract with the IESO pursuant to an application made in accordance with the FIT Program between 7 November, 2016 and 25 November, 2016.

“FIT Program” means the renewable energy Feed-In-Tariff program established by the IESO, which, pursuant to a FIT Contract, provides for 20 years of guaranteed rates per kilowatt hour paid for electricity delivered from a FIT project. Projects of different sizes earn different revenues per kilowatt-hour, all known in advance. There were five different FIT Contract rounds under the FIT program.

“FIT project” means a qualified renewable energy project that is located in Ontario, with a capacity greater than 10 kilowatts to generate electricity exclusively from a single renewable energy source that is one of on-shore wind, solar (PV) (rooftop), solar (PV) (Non-Rooftop), renewable biomass, biogas, landfill gas or waterpower, and which delivers that electricity through its own meter to the IESO-controlled grid or a distribution system for electricity that is connected to the IESO-controlled grid and is the subject of a FIT Contract.

“GEA” means Ontario’s Green Energy and Green Economy Act, 2009, which was the legislation enacted by the Government of Ontario that created the MicroFIT Program and the FIT Program. The GEA was repealed in late 2018.

"IESO" is the Independent Electricity System Operator, including the former Ontario Power Authority, a not-for-profit corporate entity tasked with real-time operations of the Ontario electricity grid and long-term planning, procurement and conservation efforts.

"Joint Venture Security Interest" has the meaning given to it in Section 9.1 below.

"MicroFIT Contract" means an agreement with the IESO made in accordance with the MicroFIT Program.

"MicroFIT Program" means the renewable energy Feed-in-Tariff program established by the OPA, which, pursuant to a MicroFIT Contract, provides for 20 years of guaranteed rates per kilowatt hour paid for electricity delivered from qualified renewable energy projects having a capacity for the generation of electricity that is 10 kilowatts or less.

"MicroFIT project" means a qualified renewable energy project having a capacity for the generation of electricity that is 10 kilowatts or less and which is the subject of a MicroFIT Contract.

"MicroFIT Projects Security Interest" has the meaning given to it in Section 9.1 below.

"Net Income" means all revenues received by SolarShare and its subsidiaries (including Project Revenues and other revenues) minus all expenses incurred by SolarShare and its subsidiaries (including Project Expenses, amortization, interest, general and administrative and other expenses).

"Offering Statement" refers to this document, including all attachments and schedules.

"Operating Income" means, with respect to a Project, the Project Revenues of the Project including any interest paid or payable on Reserve Accounts, minus the Project Expenses of the Project.

"Project" means those assets used to generate electricity through solar power which are owned, or in the case of a prospective project, will be owned, by SolarShare, a subsidiary of SolarShare, or a joint venture in which SolarShare or a subsidiary has an ownership interest (and "Projects" refers to more than one of them).

"Project Expenses" means, with respect to a Project, all expenditures in respect to the operations of the Project, determined on an accrual basis, including reimbursable costs and expenses incurred for operations and maintenance, insurance and contributions to the major maintenance reserve fund, but excluding interest and principal payable on the Debt Financing loan, fees to an Affiliate other than the Affiliate Fees, non-cash items, major maintenance costs and income taxes.

"Project Leasehold Mortgages" has the meaning given to it in Section 9.1 of this Offering Statement.

"Project Revenues" means, with respect to a Project, the sum of all amounts received or receivable from the operation of the Project which would be considered revenue in accordance with Canadian generally accepted accounting principles, including all refundable taxes received but excluding extraordinary, unusual or non-recurring items.

"PV", which stands for 'photovoltaic' means the technology used for the generation of electricity using photovoltaic solar cells, which convert sunlight directly into electricity.

"Renewable Energy Fund Agreement" means an agreement made between SolarShare and TREC, dated January 17, 2012.

"Renfrew Mortgage" has the meaning given to it in Section 9.1 below.

"Security Interest" means an interest in assets, undertaking and property, both real and personal, which secures payment or performance of an obligation, and any such interest that is created by a general security agreement, assignment, mortgage, charge, hypothecation and pledge or any one or more of the foregoing.

"Solar Bonds Security" includes:

- the SPV FIT Projects Security Interests, SolarShare FIT Projects Security Interests, any Joint Venture Security Interest, and the MicroFIT Projects Security Interests;
- the Project Leasehold Mortgages; and
- the Timiskaming Mortgage,
- the Renfrew Mortgage

as described more particularly in Section 9.1 below.

"SolarShare FIT Projects Security Interest" has the meaning given to it in Section 9.1 below.

"SolarShare Joint Venture Interest" means the joint venture interests that SolarShare owns and through which it participates in the operation of one or more FIT projects.

"Solar Bonds" refers to 2-Year, 5-Year and 15-Year bonds issued by SolarShare.

"Special Purpose Vehicle" or **"SPV"** means a special purpose vehicle that is a business corporation, wholly-owned by SolarShare, which owns a group of FIT projects. SolarShare's SPVs include CSA 1, CSA 2, CSA 4 and CSA 5.

"SPV FIT Projects Security Interest" has the meaning given to it in Section 9.1 below.

"Tapestry" means Tapestry Community Capital, a fully-owned subsidiary of TREC, which provides investment management, accounting and administrative services to SolarShare.

"Timiskaming Mortgage" has the meaning given to it in Section 9.1 below.

"TREC" means TREC Renewable Energy Co-operative Inc., a not-for-profit co-operative established to promote renewable energy through its project development, project management and educational activities.

"TREC Renewable Energy Fund" means the fund that TREC maintains as per the terms of the Renewable Energy Fund Agreement.

"Turnkey Project Development" means a project development and construction service that includes construction management, engineering, procurement, permitting, construction and commissioning of a complete solar PV system.

“Trust Agreement” means the agreement made between SolarShare and Brian Iler, as trustee, dated 29 October, 2012, as amended or restated at any time or from time to time.

“Trustee” means the person who is appointed, and who has accepted, to exercise the trusts and other obligations under the Trust Agreement, and includes any successors appointed in accordance with the terms of the Trust Agreement.

1.2 Interpretation

In this Offering Statement, unless the context requires another interpretation, a reference to “SolarShare projects” (or any similar reference) includes the Projects that are owned and operated by CSA 1, CSA 2, CSA 4 and CSA 5 as well as Projects operated through a joint venture in which SolarShare has an interest.

2 CORPORATE INFORMATION

Name of the Co-operative: TREC SolarShare Co-operative (No. 1) Inc.

Date of Incorporation: Jan 18, 2010 (subsequent certificates of amendment effective March 25, 2011 and amalgamation effective January 1, 2015).

Ontario Corporation No.: 1851991 (formerly 1613555)

Head Office Address: 192 Spadina Avenue, Suite 429
Toronto, Ontario M5T 2C2

Auditors: Kriens LaRose LLP
Thomas Kriens CPA, CA
37 Main Street
Toronto, Ontario M4E 2V5

Fiscal Year End: December 31st

Registrar/Transfer Agent: SolarShare subcontracts with Tapestry Community Capital to act as registrar and transfer agent in respect of the securities offered for sale under this Offering Statement.

Figure 1: SolarShare's Abilene project in Mississauga

3 DESCRIPTION OF THE BUSINESS OF SOLARSHARE

3.1 Background

SolarShare was established in 2010 with the goal of fostering democratically controlled community ownership of solar PV generation resources in Ontario and the belief that all

Ontarians should have the opportunity to invest in and benefit from the transition to a low-carbon economy.

SolarShare is a non-share capital co-operative amalgamated and continued pursuant to the *Co-operative Corporations Act* (Ontario) that operates on a co-operative basis and as a not-for-profit co-operative. SolarShare's business model relies on contracts that guarantee a certain price is paid for electricity or other ancillary services sold to the electricity grid. After payment of interest on term loans and Solar Bonds, cash flows are applied to meet the capital needs of SolarShare and to repay principal on commercial debt, term loans and Solar Bonds. As a not-for-profit co-operative, surplus cash flows may not be distributed to SolarShare's members.

SolarShare presently owns and operates 51 solar PV Projects that have reached Commercial Operation and are generating electricity under a FIT Contract or MicroFIT Contract. These Projects are located throughout many communities in Ontario and represent a total generating capacity of 12.2 MW. Further details on the individual Projects can be found in Schedule O – Project Descriptions.

All of SolarShare's Projects have been financed with a combination of construction and bridge loans from private lenders, Solar Bonds issued by SolarShare, and commercial debt. SolarShare successfully secured \$4.2 million in long-term debt from Equitable Life Insurance for a portfolio of Projects held in CSA 1 and \$13.2 million in long-term debt from CorpFinance International Ltd. for a portfolio of Projects held in CSA 2.

3.2 Co-operative Ownership and Investment: SolarShare's Competitive Advantage

There are many privately held companies competing to finance solar energy projects that employ the traditional model of private finance. SolarShare's value proposition and competitive advantage comes from community investment and the use of the not-for-profit co-operative model. There are two strategic advantages to this approach:

- The FIT rules in Ontario gave a regulatory advantage to community-owned solar energy projects
- Business partners and members/investors value a socially-driven enterprise that provides a reasonable return on investment

3.3 Restrictions

SolarShare's Articles of Amalgamation restrict the business of SolarShare and those of each of its existing SPVs to:

1. generating, within the meaning of the *Electricity Act, 1998*, electricity produced from one or more sources that are renewable energy sources for the purposes of that Act, and
2. selling, as a generator within the meaning of that Act, electricity it produces from one or more renewable energy sources.

This restriction means SolarShare is a “renewable energy co-operative” as defined in the Co-operative Corporations Act and therefore cannot pursue projects that do not meet the definitions set out in the Articles.

3.4 Management and Administration of SolarShare

The Board is responsible for the affairs of SolarShare. It provides management oversight and retains all final decision-making authority related to material changes in the annual operating budget, business plan, and asset ownership. Individual directors may also be involved in the daily management of SolarShare.

The Board has established seven committees to support the work of the Board. These include Finance and Planning, New Business, Governance, Marketing, Operations and Maintenance, Human Resources, and Audit. More information on the scope of work of the Board and committees is provided in Schedule M – Board and Committee Roles and Responsibilities.

SolarShare employs a small staff to manage its key operations, and engages service providers for administrative and accounting functions as well as investor management. The general terms of the service agreement with TREC and Tapestry Capital are described in Section 16 below. SolarShare also contracts with three private service providers for maintenance of its Projects.

3.5 Board and Committee Experience

SolarShare’s By-laws (Organizational By-law – see Schedule D to this Offering Statement) stipulate that the Board shall consist of a minimum of five and a maximum of twelve directors. The Board currently consists of nine directors and is supported by seven committees, which include director and non-director members.

The first table below describes Board members while the second table describes non-Board committee members.

Table 1: Board Membership

Amy Zhang	Vaughan	Committee Member	Accountant	Finance strategy	Finance and Planning

3.6 Management Team

SolarShare is managed by an experienced team that ensures quality control, effective project evaluation and delivery, and fiscal accountability. SolarShare employs two full-time and six part-time staff.

Mike Brigham, President, also plays a strong role in the daily activities of SolarShare. With over 25 years of experience in solar PV technology and having active roles in the Green Energy Act Alliance and the Canadian Solar Industries Association, Mr. Brigham leverages his considerable project and technical experience with his industry involvement to best represent the interests of SolarShare and its members.

Chris Caners, General Manager, is a professional engineer with fifteen years of experience in renewable energy, climate and energy efficiency. He has worked for ICF, the University of Toronto, and M-Kopa Solar, and has held volunteer positions with The Atmospheric Fund, the Clean Air Partnership and the Centre for Social Innovation. Chris is responsible to the Board for the management of SolarShare.

Bob Ross, Operations and Maintenance Coordinator, has managed over 300 solar projects throughout North America utilizing his skills in design, evaluations, engineering, installation, commissioning and monitoring. He teaches in the Renewable Energy Techniques program at Conestoga College. Prior to joining SolarShare, Bob was a Project Manager at Efston Science (eSolar) and Operations Manager at Solar Ontario.

SolarShare also employs six local technicians part-time in the Timiskaming and Kingston areas to provide site maintenance services for SolarShare's ground mounted Projects in those regions.

The management team is supported by TREC staff and resources for bookkeeping and administration, as well as investment management services from Tapestry Community Capital which shares offices with TREC.

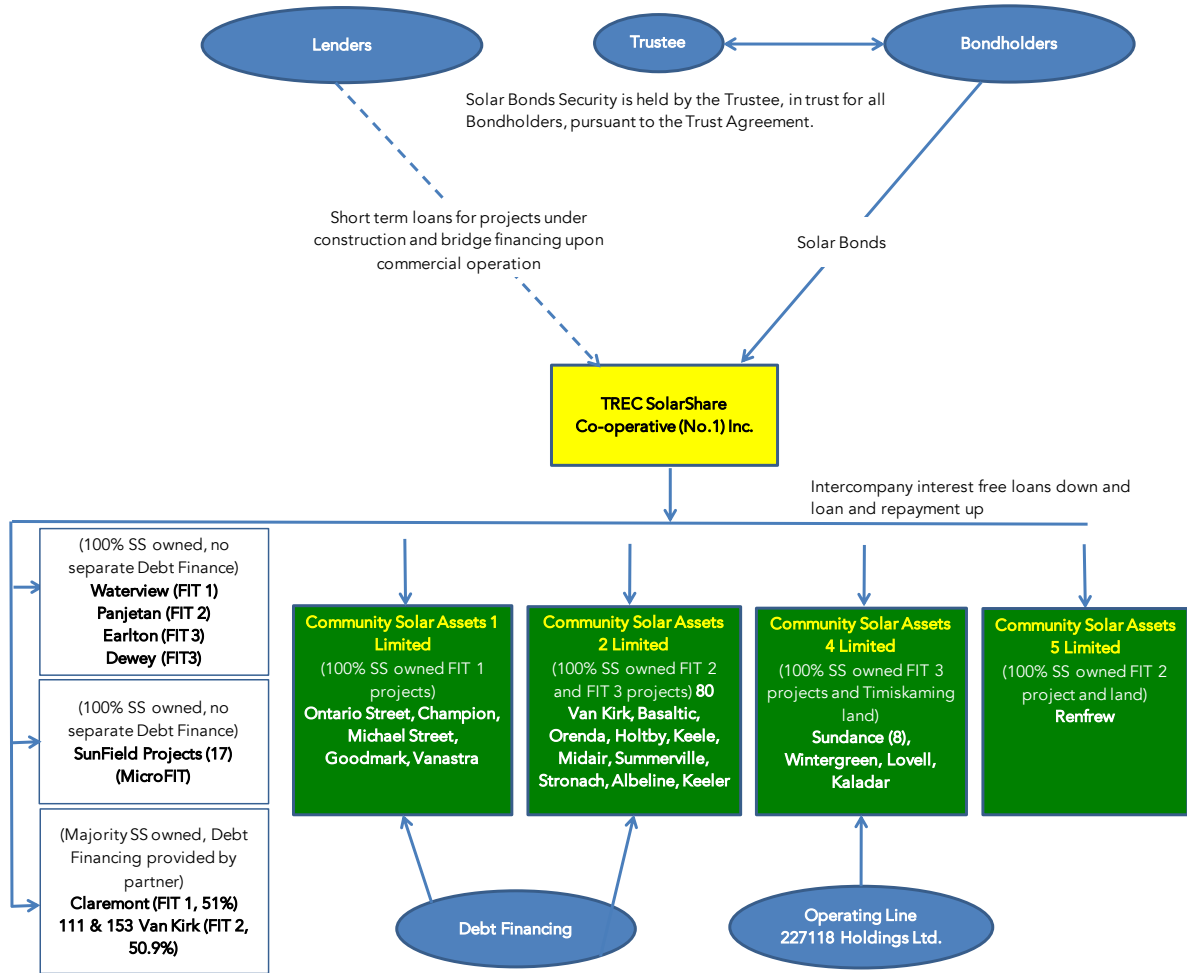

3.7 Legal Structure and Key Relationships

SolarShare holds some of its Projects directly, while it holds others in its SPVs (i.e. CSA 1, CSA 2, CSA 4 and CSA 5). SolarShare also holds an additional interest in two joint ventures, one with 50.9% interest in two Projects and another joint venture with 51% interest in one Project.

In the past, SolarShare has received construction and bridge financing from private lenders to construct or acquire Projects, which was then repaid from capital raised from the sale of Solar Bonds, Debt Financing or other sources. SolarShare may obtain similar debt financing should it be required in the future.

All of these relationships are shown and described in Figure 2 and Table 3 below. More information on each Project is provided in Schedule O – Project Descriptions.

Figure 2: Corporate Structure

ASSET SECURITY PRIORITY

	First	Second
SolarShare	Holders of Solar Bonds	Unsecured lenders, such as Morgan Solar and Solera
CSA 1	Debt Financing	Holders of Solar Bonds
CSA 2	Debt Financing	Holders of Solar Bonds
CSA 4	Holders of Solar Bonds	Unsecured lenders, such as 227118 Holdings Ltd.
CSA 5	Holders of Solar Bonds	N/A

LEGEND

- Individuals or organizations
- Non share capital not for profit co-operative corporation incorporated under Ontario Co-operative Corporations Act
- Share capital corporation incorporated under Ontario Business Corporations Act
- Directly owned solar projects

In 2021, SolarShare was successful in acquiring the Keeler and Renfrew Projects. The Keeler Project was added to the CSA 2 portfolio in order to improve the DSCR for the Debt Financing, while the Renfrew Project was added to a new SPV, CSA 5.

Table 3: SolarShare Company Descriptions

ENTITY	DESCRIPTION
SolarShare	<p>The parent co-operative that owns some of the Projects outright, others through its SPVs, CSA 1, CSA 2, CSA 4 and CSA 5, and three Projects through two different joint ventures.</p> <p>Solar Bonds and interest are repaid from the revenues from all of the Projects.</p>
Community Solar Assets 1 (CSA 1)	<p>An SPV that holds FIT projects pursuant to FIT 1 Contracts. SolarShare is the sole shareholder of CSA 1. The Debt Financing provided to CSA 1 for the FIT projects that it owns was provided by Equitable Life Insurance Company and is secured by the Project assets held within CSA 1 only. The assets of the Projects held directly by SolarShare and the assets of the Projects held within CSA 2, CSA 4 and CSA 5 are not included in the security for the Debt Financing provided by Equitable Life Insurance Company.</p>
Community Solar Assets 2 (CSA 2)	<p>An SPV that holds FIT Projects pursuant to FIT 2 and FIT 3 Contracts. SolarShare is the sole shareholder of CSA 2. The Debt Financing provided to CSA 2 for the FIT Projects that it owns was provided by CorpFinance International and is secured by the Project assets held within CSA 2 only. The projects held directly by SolarShare and those within CSA 1, CSA 4 and CSA 5 are not included in the security for the Debt Financing provided by CorpFinance International.</p>
Community Solar Assets 4 (CSA 4)	<p>An SPV that holds FIT projects pursuant to FIT 3 Contracts. SolarShare is the sole shareholder of CSA 4. There is currently no Debt Financing outstanding in place for CSA 4.</p>
Community Solar Assets 5 (CSA 5)	<p>An SPV that holds a FIT project pursuant to a FIT 2 Contract. SolarShare is the sole shareholder of CSA 5. There is currently no Debt Financing outstanding in place for CSA 5.</p>
Joint Ventures	<p>SolarShare owns a 50.9% interest in a joint venture that operates two FIT projects, 111 Van Kirk and 153 Van Kirk, which are both the subject of FIT 2 contracts.</p> <p>SolarShare also owns a 51% interest in a joint venture that operates a FIT project, referred to as Claremont which is the subject of a FIT 1 Contract. The other joint venturers are the local distribution company and the project developer.</p>

3.8 Technology

The major components of any solar PV system are the solar PV modules, the inverters and the mounting system, which may include either fixed racking or moveable trackers. The PV modules and the inverters are the most expensive components. In order to lower the risks associated with any of its Projects, SolarShare regularly reviews solar technologies and will employ only those that are considered to be quality products from reputable companies offering effective warranties that are expected to endure for the life of the equipment.

Many of SolarShare's Projects have also undergone a rigorous third-party due diligence assessment as a component of Debt Financing. All CSA 1 and CSA 2 Projects have been evaluated by independent engineers who have conducted site visits and carefully reviewed the installed equipment, as well as SolarShare's contracts, financial models and regulatory requirements. These reviews are used by Debt Financing lenders to assess the quality of SolarShare's solar PV Projects, which in all cases have shown the Projects and their upkeep to have been acceptable to the lenders.

All of SolarShare's Projects have live monitoring of electricity generation and equipment operational status, which can be viewed online via the SolarShare website (solarbonds.ca). Members can see how the systems are performing and can access a variety of other data, along with educational information about solar electricity.

SolarShare monitors the systems daily in order to respond quickly to any disruptions in performance. In the case of a disruption, SolarShare employs local, part-time maintenance staff, and contracts with several maintenance service providers, which conduct both emergency repairs and regularly scheduled maintenance on all Projects. Further details on the maintenance service providers can be found in Section 16 below.

3.9 SolarShare Membership

Membership in SolarShare is open to individuals who are residents of Ontario. Members are required to pay a one-time membership fee of \$40.

Members are entitled to one vote at co-operative member meetings regardless of the amount of bonds they have purchased. Membership in SolarShare shall not be transferable unless authorized by the Board, and is subject to a \$50 transfer fee, in accordance with SolarShare's by-laws. SolarShare may at its discretion charge members reasonable administrative fees.

The members of SolarShare have a right under the Co-operative Corporations Act to receive the financial statements and the auditor's report annually at least 10 days before each annual meeting of members.

More information about the membership in SolarShare is available in Schedule N – SolarShare Members.

Figure 3: SolarShare's Renfrew project near Arnprior, Ontario, acquired in 2021.

3.10 Authorizations, Licenses, and Permits

SolarShare, and in the case of Projects owned and operated through the SPVs, the applicable SPV hold all authorizations, licenses and/or permits that are, or were, required to complete and operate its Project portfolios, including the following:

- FIT Contracts from the IESO to sell electricity produced at the site for approximately 20 years at a fixed rate, which depends on the FIT Contract round;
- Permission from the local distribution company to connect the solar installation to the electricity grid;
- Relevant certificates and authorizations from the Electrical Safety Authority confirming the safety of the installation, including as the certificate of inspection and authorization to connect;
- A structural engineering study for rooftop installations to ensure that the buildings can safely accommodate the intended system; and
- Municipal building permits confirming the Project conforms with the local building code.

3.11 Environmental Compliance

In accordance with Ontario Regulation 359/09 under the Environmental Protection Act, renewable energy facilities generating less than 10 kW and all rooftop PV systems are exempt from obtaining a Renewable Energy Approval (REA) from the Ministry of the Environment, Conservation and Parks for the Province of Ontario. All of SolarShare's rooftop Projects covered by this Offering Statement are therefore exempt from the REA.

As of November 18, 2012, certain small ground-mounted solar facilities must register in the Environmental Activity and Sector Registry (EASR), as per O. Reg. 350/12 under the Environmental Protection Act. The EASR applies to ground mounted solar Projects with a nameplate capacity between 10 kW and 500 kW. Some of the Projects covered by the Offering Statement therefore require and have registrations under the EASR.

The EASR sets out criteria that must be met in order for a facility to be registered. If a facility cannot meet these criteria, it may require a full REA or Environmental Compliance Approval (ECA). The criteria include or may include restrictions on zoning, length of off-property distribution lines, compliance with the Niagara Escarpment Planning and Development Act, noise and proximity to water bodies and archaeological sites, etc. SolarShare is required to ensure that the information for each Project registered under the EASR remains up to date and that the Project continues to meet the requirements of O. Reg. 350/12 throughout its operating life.

3.12 Real Estate

SolarShare owns two parcels of land. One is in Timiskaming, Ontario where a communications tower is located that is necessary for the functioning of the Sundance Projects. The second (which actually is comprised of two parcels side by side) is the land on which the Renfrew Project is located near Arnprior, Ontario. The remainder of SolarShare's real property interests is limited to the leasehold interests in properties on which its Projects are located. SolarShare and the SPVs have entered into lease agreements with property owners to host the Projects. SolarShare may purchase land associated with operating projects in future. See Section 16 below for a summary of existing lease agreements.

3.13 Insurance

SolarShare carries appropriate insurance for its operations. Coverage includes direct physical loss or damage (subject to exclusions including flood, earthquake and equipment breakdown); commercial general liability insurance; business interruption; errors and omissions; and directors' and officers' liability, including employment practices liability.

3.14 Business Development

While the FIT program was eliminated in July 2018, SolarShare's contracts under the FIT program remain in force. Opportunities for more investment in new projects in the province have changed significantly with the elimination of the FIT program.

SolarShare continues to seek opportunities to invest in or purchase additional solar FIT projects in Ontario. SolarShare is also assessing opportunities to invest in solar power and battery storage assets that have revenue contracts with government-backed organizations.

3.15 Project Financing

3.15.1 Construction, Acquisition and Other Financing

SolarShare's business model historically used construction, acquisition (bridge) or other financing from construction and/or other private lenders. SolarShare may continue to use financing from

private or other suitable lenders for the acquisition of additional projects in Ontario or for other purposes.

3.15.2 Re-Financing

Financing from construction/bridge lenders or other suitable lenders is typically refinanced with Solar Bonds or Debt Financing, or repaid from Project Revenues.

Furthermore, as bonds reach maturity, refinancing of that debt will continue through the sale of more Solar Bonds. SolarShare will sell Solar Bonds up to the maximum stated in this Offering Statement.

SolarShare is not planning to seek further Debt Financing for its Projects over the term of this Offering Statement, but may do so if appropriate.

Figure 4: 80 Van Kirk project in Brampton, Ontario.

4 FINANCIAL AND OPERATING PERFORMANCE HISTORY

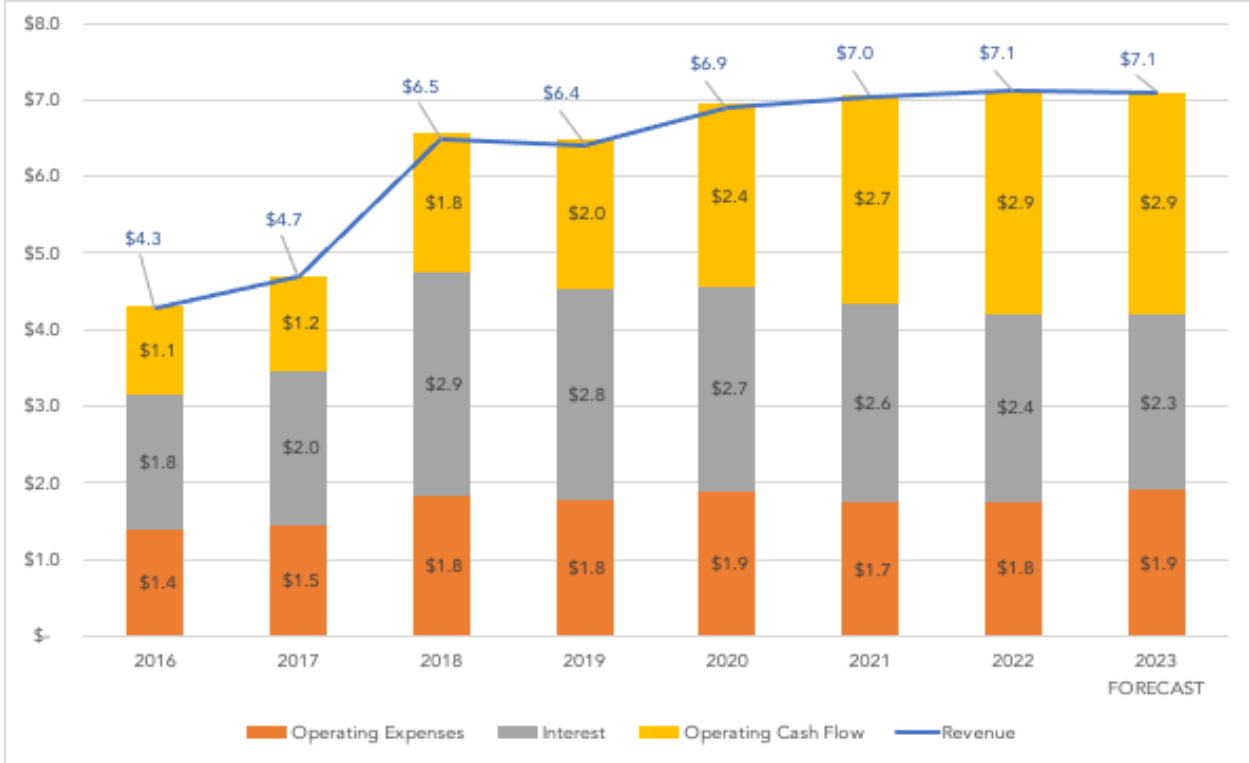

4.1 Overview

SolarShare projects a positive cash flow that increases over time at an accelerating rate as aggregate debt and associated interest expenses decline. As shown in Schedule A – Pro Forma Financial Statements, Net Income is forecast to become positive in 2025 and to continue to increase as the balance of Solar Bonds and debt outstanding (and therefore annual interest) decreases.

SolarShare’s portfolio of solar assets includes 51 individual Projects, all operating with MicroFIT or FIT Contracts. All but three Projects are 100% owned by SolarShare, or by one of its three SPVs. Two Projects are 50.9% owned by SolarShare, with 49.1% owned by the landowner of the sites, and one Project is 51% owned by SolarShare, with 49% owned by the local distribution company and the original Project developer. Details of each Project are provided in Schedule O – Project Descriptions.

Figure 5 below summarizes the operating cash flow performance history of SolarShare. Revenue increased from \$4.4 million in 2016 to \$6.5 million in 2020 primarily due to the addition of the CSA 4 portfolio. Revenues increased from 2020 to 2022 due to operational improvements in the CSA 4 portfolio and the addition of two new Projects in 2021. Revenues in 2023 are expected to be similar to 2022.

Figure 5: Operating Cash Flow History (in millions of dollars)

The tables in Sections 4.2 to 4.8 provide a multi-year summary of revenues (Project Revenues along with other revenue) and cash flows, including projections for 2022.

4.2 Consolidated Operating Results and Forecasts

NOTES:

SolarShare’s revenue projections are based on historic performance. The most significant influence on deviations from anticipated Project Revenues generation year to year across SolarShare’s portfolio of Projects are weather conditions. These conditions vary over time and include irradiance (the amount of sunlight that reaches the surface of the earth), precipitation (which may deposit or remove snow and dirt in the case of rain) and temperature (which impacts the conditions for snow melt and the efficiency of the panels).

2016 – 2022 Revenue Results: In 2016, Project Revenues generation exceeded expectations due to advantageous weather conditions throughout the year, particularly in the final three quarters of the year. In 2017 through 2019, Project Revenues generation were reduced by poor weather conditions in Q1 and Q4, while conditions and therefore revenue generation in Q2 and Q3 were generally consistent with expectations. SolarShare’s annual revenue in 2020 was the largest in our history, which was exceeded in 2021 as two new Projects were added in the first half of 2021. Project Revenues in 2022 exceeded 2021 as the two new Projects added in 2021 generated revenue for the entirety of 2022.

2023 Forecast: Project Revenues across the SolarShare Project portfolio are forecast to decrease slightly from 2022 to 2023 due to the regular degradation of the production of the solar panels over time. Project Expenses have conservatively increased over 2022, in particular as expenses for major maintenance and regular infrared scans are included.

4.3 SolarShare Operating Results and Forecasts (Directly-Owned Projects)

Year to December 31	Historic Actuals							Forecast
	2016 Actual	2017 Actual	2018 Actual	2019 Actual	2020 Actual	2021 Actual	2022 Actual	2023 Forecast

Dewey	-	-	20	108	119	115	103	110
Total	498	556	545	595	631	594	579	536

NOTES:

SolarShare directly owns a variety of Projects including Waterview, Panjetan, Earlton and Dewey, as well as the Sunfields portfolio (consisting of 17 MicroFIT projects) and two joint ventures (Van Kirk and Claremont); Van Kirk and Claremont are presented separately below. These Projects represent a wide range of vintages and geographies in Ontario, including in Mississauga, Markham, Earlton, Kingston and across Manitoulin Island and MicroFIT, FIT 1 Contract, FIT 2 Contract and FIT 3 Contract contracts.

The performance of the portfolio of Projects directly held by SolarShare in 2020 and 2021 was excellent, with Project Revenues about 5% greater than forecast. In 2022, revenues were slightly less than budgeted.

Project Revenues for the SolarShare directly owned projects in 2023 is expected to be consistent with previous years. Project Expenses are expected to increase this year due to the repair of one of the Sunfields systems that was damaged during a storm and due to planned infrared maintenance scans of SolarShare's entire portfolio.

4.4 Van Kirk and Claremont Joint Venture Operating Results and Forecasts

Year to December 31	Historic Actuals							Forecast
	2016 Actual	2017 Actual	2018 Actual	2019 Actual	2020 Actual	2021 Actual	2022 Actual	2023 Forecast
Van Kirk JV (\$ thousands)								
Project Revenues								
111 Van Kirk at 50.9%	106	199	200	190	204	187	206	197
153 Van Kirk at 50.9%	104	194	192	168	197	189	188	187

Project Expenses								
111 Van Kirk at 50.9%	24	47	47	48	47	48	49	50
153 Van Kirk at 50.9%	25	47	47	47	47	49	50	49
Total	49	94	94	95	94	97	98	99
Operating Income								
111 Van Kirk at 50.9%	82	152	153	142	157	139	157	147
153 Van Kirk at 50.9%	79	147	145	121	150	140	138	138
Total	162	300	298	262	307	279	295	285

NOTES:

The Van Kirk Joint Venture Projects are owned by SolarShare through its ownership of 50.9% joint venture interest, and these Projects consist of two 600 kW DC roof mounted arrays located in the municipality of Brampton. Both are FIT 2 Contract contracts, with a rate of 0.539 \$/kWh.

In the spring of 2019, the single central inverter at the 153 Van Kirk Project, and as a result the Project did not generate any Project Revenues for more than one month due to an extremely long lead time to purchase replacement parts. Most of the lost Project Revenues were recovered through SolarShare's insurance. To reduce the risk of extended generation outages in future and to maximize Project Revenues, SolarShare has purchased a comprehensive inventory of key spare parts for its fleet of central inverters.

The Van Kirk Joint Venture portfolio performed well in 2020, 2021 and 2022, and Project Revenues and Project Expenses are expected to be similar in 2023.

Please note that the Van Kirk Joint Venture partnership share of Project Revenues and Project Expenses are accounted for in a single line item in the financial pro-formas presented in Schedule A – Pro Forma Financial Statements and as a result, total Project Revenues across SolarShare are higher as the joint venture amount is not removed from the total.

Year to December 31	Historic Actuals							Forecast
	2016 Actual	2017 Actual	2018 Actual	2019 Actual	2020 Actual	2021 Actual	2022 Actual	2023 Forecast
Claremont JV (\$ thousands)

Operating Income								
Claremont JV at 51%	-	-	-	19	25	24	24	22
Total	-	-	-	19	25	24	24	22

NOTES:

The Claremont Joint Venture Project is owned by SolarShare through its ownership of 51% joint venture interest. The Project consists of one 100 kW DC roof mounted array located in the municipality of Pickering, holding a FIT 2 Contract with a rate of 0.548 \$/kWh.

The interest in the Claremont Project was acquired in 2019 and has performed well in 2020, 2021 and 2022. Project Revenues and Project Expenses in 2023 are expected to be in-line with historic performance.

NOTES:

The CSA 1 portfolio consists of 5 roof-mounted Projects of varying sizes, totalling just over 1 MW DC. The Projects are located in the municipalities of Ottawa, St. Catharines, Moose Creek, Toronto and Clinton. All five of the Projects are FIT 1 Contract contracts, with a rate of 0.713 \$/kWh.

Due to the fire that occurred at the Goodmark Project in spring of 2018 and subsequent technical issues associated with the newly installed optimization system, Project Expenses were greater than budgeted in 2018 and 2019. Project Revenues were higher than forecast in 2018 due to the insurance claim but lower than expected in 2019 due to the optimizer issues. Those optimizer issues have since been resolved and the Project is performing better than expected.

Champion Mushroom has experienced lower than budgeted Project Revenues due to frequent inverter arc-faults and extremely long warranty claims. Project Expenses for Champion Mushroom were higher than budgeted in 2021 as SolarShare purchased replacements for these inverters. However, the existing inverters were able to be repaired at a much lower cost and the new inverters were not installed. The expense of the inverters was reversed in 2022, and they have instead been added to SolarShare's equipment inventory.

Project Revenues for the CSA 1 portfolio met or exceeded budget in 2020 and 2021. Project Expenses in 2022 were lower than expected due to the reversal of the inverter expense for Champion Mushroom. Project Revenues and Project Expenses are expected to be similar to 2021 in 2023.

NOTES:

The CSA 2 portfolio consists of ten roof-mounted Projects, located in Brampton, Vaughan, Mississauga, Aurora and Colbourne. Five of the Projects are 300 kW DC each, while four are 600 kW DC each. All except the Stronach and Keeler Projects are FIT 2 Contract contracts with a rate of 0.539 \$/kWh.

The Keeler Project is a 300 kW system located on the roof of a municipal ice rink, with a FIT 4 contract and rate of 0.225 \$/kWh was purchased in 2021 and added to CSA 2 in order to improve the projected debt service coverage ratio of the portfolio.

String inverters common to four of the ten Projects in the CSA 2 portfolio were replaced on the Orenda site in late 2019 in order to provide an inventory of spare string inverters for CSA 2 Projects, reducing downtime and improving Project Revenues.

The Abilene and Midair Projects experienced intermittent inverter and combiner box faults from 2017 to 2019; these have now been corrected. SolarShare has invested in an inventory of spare central inverter parts (Abilene and Midair both use central inverters) to improve Project Revenues generation and prevent unnecessary generation outages.

In 2023, Project Revenues are expected to be consistent with recent years. Project Expenses are expected to increase, primarily due to the addition of budget for major maintenance expenditures.

Total	-	439	2,078	2,021	2,101	2,137	2,043	1,979

NOTES:

The CSA 4 portfolio consists of ten 600 kW DC and one 300 kW DC dual axis tracker facilities, with eight located in Timiskaming and three near Kingston. The first full year of operation for these sites was 2018.

In 2018, the first year of commercial operation for the CSA 4 Projects, Project Revenues were approximately 20% lower than expected. To improve Project Revenues, a used snow groomer machine was purchased for snow management at the Sundance sites located in Timiskaming. In addition, part-time staff were hired in Timiskaming and Kingston to improve system operation. Budgeted Project Revenues for 2019, 2020 and 2021 were reduced by between 5% and 15% compared to original energy output forecasts.

Project Revenues budgeted for 2023 are based on actual historic performance, approximately 15.4% lower than the original energy output forecasts. An increase in Project Expenses has been conservatively budgeted for 2023.

4.8 CSA 5 Operating Results and Forecasts

Year to December 31	Historic Actuals							Forecast
	2016 Actual	2017 Actual	2018 Actual	2019 Actual	2020 Actual	2021 Actual	2022 Actual	2023 Forecast

Total	-	-	-	-	-	45	84	61
Operating Income								
Braeside	-	-	-	-	-	226	281	302
Total	-	-	-	-	-	226	281	302

NOTES:

The CSA 5 portfolio consists of one 600 kW DC dual axis tracker facility located near Arnprior, named the Renfrew Project. The Renfrew Project was acquired in 2021 and has a FIT 2 Contract with a rate of 0.398 \$/kWh.

The Renfrew Project is performing as expected. Since its acquisition in 2021, improvements to the facility have been ongoing, including efforts to improve the resilience of the tracker motors.

In 2023, Project Revenues and Project Expenses are expected to remain similar to 2022.

4.9 Debt Service Coverage

The CSA 1 and CSA 2 portfolios have non-recourse commercial term loans in place. The terms of the commercial loans require that if the DSCR (calculated on the latest four quarters' results) falls below 1.50, the level of cash reserves must be increased; if the DSCR falls below 1.20, the loan is in default. The following table shows the DSCR ratios for CSA 1 and CSA 2 for the past eight quarters.

Table 4: CSA 1 and CSA 2 DSCR, 2021 and 2022

	CSA 1 DSCR	CSA 2 DSCR
Q1 2021	1.70	1.56
Q2 2021	1.66	1.51
Q3 2021	1.52	1.51
Q4 2021	1.49	1.51
Q1 2022	1.37	1.45
Q2 2022	1.38	1.49
Q3 2022	1.53	1.51
Q4 2022	1.84	1.52

Poorly performing inverters at the Champion Mushroom Project reduced revenues and increased costs (due to the purchase of replacement inverters in Q3 2021), and as a result the DSCR for CSA 1 fell below 1.50 to 1.49 in Q4 of 2021. SolarShare’s intention was to install the replacement inverters in 2022 to improve revenue; instead, the inverter manufacturer’s warranty service was sold, after which service times improved significantly and the existing inverters were repaired at a much lower cost. As the inverters were not ultimately used for the Champion Mushroom Project, the inverters have been added to SolarShare’s equipment inventory and the expense reversed. The DSCR for CSA 1 exceeded 1.50 again in the third quarter of 2022 and remained above 1.50 in the fourth quarter of 2022.

Under the terms of the CSA 1 loan, when the DSCR is 1.50 or greater, a reserve of three months principal and interest is set aside. When the DSCR falls below 1.50 (but is still above 1.20), additional funds are deposited into the reserve account, increasing the reserve amount to cover six months principal and interest.

The Keeler Project was acquired in 2021 and added to the CSA 2 portfolio in order to improve the DSCR of that portfolio. The DSCR for CSA 2 portfolio remained above 1.50 for all of 2021, and fell just below 1.50 in the first quarter of 2022, but remained above the default threshold of 1.20. Starting in Q3 2022, the DSCR for CSA 2 again rose above 1.50.

Under the terms of the CSA 2 loan, when the DSCR is 1.50 or greater, a reserve of six months principal and interest is set aside. When the DSCR falls below 1.50 (but is still above 1.20), additional funds are deposited into the reserve account, increasing the reserve amount to cover twelve months principal and interest.

5 FINANCIAL PROJECTIONS

SolarShare has prepared financial projections through 2038 for its operations as shown in Schedule A. These projections are based upon assumptions that the Board believes to be reasonable and which are summarized below. Actual results will vary, perhaps materially, from these projections. Some or many of the assumptions may change on account of circumstances beyond the control of SolarShare. A comprehensive statement of these risk factors is set out in Section 7 of this Offering Statement.

Each SolarShare Project requires substantial initial investment, and then generates relatively predictable positive cash flows over a period of 20 years, during which pricing for electricity generated is fixed under the FIT energy supply contract for that Project. Project electricity generation varies year to year based on weather conditions. Operating expenses, including lease, property tax, insurance, repairs and maintenance, are typically very predictable. When considering potential project acquisitions, the Board applies a rate-of-return threshold that is significantly higher than the rate of interest paid on Solar Bonds.

5.1 Use of Surplus

Any cash flow surpluses generated by SolarShare's Projects, after all Solar Bonds and other obligations have been repaid (including those described in Section 16.14 below relating to Community Wealth Non-Profit Corporation), will be assigned to the TREC Renewable Energy Fund, which will invest in more community power projects. The TREC board of directors and membership are comprised of individuals who have championed the community-based renewable energy sector.

Surpluses are defined as the proceeds from Projects net of operating costs, which costs include insurance, maintenance, leasing, administration, utility costs, debt financing and interest and principal payments on Solar Bonds and operating reserves. While there is an obligation to assign any surpluses to the TREC Renewable Energy Fund, SolarShare has full discretion to keep sufficient funds to meet its financial obligations.

While Projects may incur an accounting loss in their early years, they generate positive net income generally by the fourth or fifth year of the Project. Cash flows are consistently positive. Up-front costs such as those related to bond sales are treated conservatively, and are fully expensed as incurred, rather than being capitalized. The statements provided in Section 4.4 and Schedule A – Pro Forma Financial Statements show that the Projects produce net positive cash flow after operating expenses. Operating cash flow surpluses are used for payment of bond principal at maturity, non-Project operating expenses, and cash safety maintenance reserve.

Modelling shown in Schedule A – Pro Forma Financial Statements, projects the surplus (cash) to be approximately \$1 million in 2038.

Figure 6: SolarShare's Holtby project in Brampton

5.2 Financial Assumptions

The pro forma financial projections have been prepared using Canadian generally accepted accounting principles for not-for-profit organizations as described in Part III of the CPA Canada Handbook. The following financial assumptions were used:

1. **Project Revenues** – Revenue estimates are based on the applicable FIT Contract rate and estimates of site-specific electricity generation. These estimates are based on historic performance and include reductions to account for panel degradation, system downtime and transformer losses. The revenue from CSA 4 has been reduced by 15.4% from 2023 onwards, compared to original energy output forecasts, due to the lower than expected revenue generated.
2. **Revenue Inflation** – Revenue from sale of electricity under the fixed price contract does not include an escalation clause.
3. **Solar Panel Performance Degradation** – Solar panels gradually wear out over time so that less electricity is generated each year. The financial projections assume a 0.6% reduction of electricity every year. Modules used in the Projects include manufacturer performance warranties that stipulate that their modules will produce at least 90% of their rated capacity in year 10 and 80% of their capacity in either year 20 or 25.
4. **Equipment Replacement** – Some equipment is expected to require replacement after the end of the term of the warranty, such as inverters. The financial projections include estimated expenses for such replacements.
5. **Lease Payments (Rent)** – Almost all of the Projects under contract have a fixed roof or land lease rate; some lease rates are a percentage of electricity revenue.

6. **Operations and Maintenance** – Project Expenses from operations and maintenance are calculated on a per Project basis, based largely on system size and characteristics and include repairs and maintenance, monitoring, insurance, lease payments, utility account fees and contingency. These expenses are intentionally conservative in order to provide a financial buffer. The Project Expenses for some Projects in SolarShare, CSA 4 and CSA 5 include snow removal during the winter and grass maintenance during the summer to improve revenue generation.
7. **SolarShare and SPV Management** – It is assumed that there will be a cost to administer SolarShare and the SPVs over the life of the FIT Contracts.
8. **Expense Inflation** – Expenses are assumed to increase annually by an inflation factor of 2.0%, unless the rates are otherwise known (for example, leases).
9. **Maintenance Expenditure** – The cost of day-to-day repairs and replacements is included in Project Expenses and is based on historic costs. The forecasts assume inverter replacement after ten years, and in several cases removal and replacement of the solar array to allow re-roofing, with these costs expensed.
10. **Accounts Receivable and Accounts Payable** – Both accounts receivable and payable are expected to remain at approximately the same levels as the first year for each Project. As such, they remain unchanged until the end of the FIT Contract at which point they are assumed to be zero.
11. **Project Residual Value and Decommissioning** – There is no provision for decommissioning costs for any Project location. Solar facilities have a life far greater than the 20-year FIT Contracts and there are compelling arguments that these systems will be operable on a profitable basis from the 21st year onward. However, the assumption has been made that the net value of the facility after expiry of the FIT Contract is zero, and no Project Revenues have been forecast beyond the 20-year FIT Contracts.
12. **Interest Rates** –
 - a. CSA 1 Debt Financing – long term commercial debt financing for CSA 1 has been secured for a term of 16 years from February 20, 2015, at a 4.789% interest rate.
 - b. CSA 2 Debt Financing – long term commercial debt financing for CSA 2 has been secured for a term of 15 years from September 6, 2017, at a 5.262% interest rate.
 - c. Solar Bonds – The Solar Bond interest expense is assumed to accrue at the rate associated with the terms of the issued bonds. For this offering, Solar Bonds may be issued for terms of three years, earning 3.5%, 4%, 4.5%, or 5% annual simple interest, for terms of four years, earning 3.5%, 4%, 4.5%, or 5% annual simple interest, and for terms of five years, earning 3.5%, 4%, 4.5% or 5% annual simple interest; some Solar Bonds issued in the past accrue 3%, 4%, 4.5%, 5% or 6% interest.
13. **Solar Bond Refinancing** – Solar Bonds with principal repaid at maturity will be refinanced with future Solar Bond offerings and funds from operations. If those sources of financing

are insufficient, SolarShare will seek other financing from private lenders, financial institutions, or other sources.

Future Solar Bond interest rates will be set according to market conditions. SolarShare carefully monitors interest rates and their potential impact on financing activities. The interest rates of Solar Bonds are set according to operating needs and market conditions. SolarShare's financial models assume that bond interest rates will remain constant from 2025 onwards.

For all Solar Bonds other than those held in a registered account with the Canadian Workers Co-operative Federation and 15-Year Solar Bonds, interest is calculated annually and paid biannually.

For those 5-Year Solar Bonds held in a registered account with the Canadian Workers Co-operative Federation, interest is compounded annually and paid at maturity.

All 15-Year Solar Bonds are repaid by mixed payments of interest and principal, calculated annually and paid biannually.

14. **Financing** – Private or other lenders as available and needed may provide capital to SolarShare for operations, the construction or acquisition of solar facilities, refinancing of other debts or repayment of bonds.
15. **Operating (Credit) Lines** – CSA 4 has established an agreement with 227118 Holdings Ltd. (owned and controlled by Mike Brigham, President of SolarShare), as a source of working capital. Up to \$5,000,000 is available from this facility. Please see Schedule L – 227118 Holdings Ltd. Operating (Credit) Line for more information.
16. **Excess Funds on Hand** – To be conservative, no amounts are included in revenue to SolarShare (or any SPV) for any interest earned from cash-on-hand for temporary periods.
17. **Early Repayments** – SolarShare has the right to repay Solar Bonds before their maturity date. If SolarShare is no longer growing and begins to accumulate cash from the sale of electricity, or as the value of the solar assets decline, then SolarShare may reduce its interest expense and its liabilities by buying back Solar Bonds. SolarShare redeemed Solar Bonds with a value of approximately \$1.5 million with interest rates of 5% annually in 2021 and 2022, reducing overall interest expenses.
18. **TREC Renewable Energy Fund** – Payments to the Renewable Energy Fund Agreement will be made in accordance with the terms of the Renewable Energy Fund Agreement. See Schedule K – Terms of Renewable Energy Fund Agreement.
19. **Taxation** – SolarShare is a non-share capital co-operative incorporated for non-profit purposes. SolarShare and each of the SPVs claim an exemption from income tax under section 149(1)(l) of the Income Tax Act, and so it is assumed that no income tax will be payable. However, in the event that SolarShare is obliged to pay income tax, payment would be from surplus otherwise payable to the TREC Renewable Energy Fund, and the impact on SolarShare's ability to pay interest and principal on the Solar Bonds would be minimal. SolarShare and each of the SPVs is a registrant for Harmonized Sales Tax

purposes, and therefore it is anticipated that the impact of HST on their respective finances will be neutral.

20. Additional Acquisitions – The financial projections currently assume that SolarShare and the SPVs will not acquire new Projects, but they will be updated if such an acquisition is likely or occurs.

21. Amortization – Amortization on energy production assets is charged using the straight line method over 20 years from start of commercial operation. Amortization on capital spare inverters is charged using the straight line method over 10 years commencing with the installation date.

6 USE OF PROCEEDS OF THE OFFERING

6.1 Solar Bonds

Minimum Offering:	Nil
Maximum Offering:	\$15,000,000

SolarShare is seeking to raise up to \$15 million in Solar Bonds under this Offering Statement. The funds raised will be used to refinance Solar Bonds (up to approximately \$8 million, and, if fiscally prudent, make capital investments in new or existing assets.

More specifically, refinancing of Solar Bonds includes refinancing some of those Solar Bonds that are maturing over the term of the Offering Statement (approximately \$1.8 million) as SolarShare uses free cash flow to repay the balance of maturing Solar Bonds. SolarShare may also choose to reduce interest expenses and/or manage Solar Bond maturities by offering early redemptions to refinance Solar Bonds maturing in future (up to approximately \$6 million). Finally, if fiscally prudent, and if capital is available, SolarShare may make capital investments in new or existing assets. In particular, SolarShare is assessing opportunities to invest in solar power and battery storage assets that have revenue contracts with government-backed organizations.

6.2 Debt Financing

SolarShare does not plan to seek additional commercial debt on its Projects over the term of this Offering Statement; however, should the Board determine that additional Debt Financing is required then SolarShare may seek such financing.

6.3 Construction, Acquisition and Operational Financing

SolarShare sometimes uses financing to purchase or build Projects. The amount of financing varies depending on SolarShare's financing needs and the terms of the financing. We expect that this financing will be obtained from private lenders.

6.4 227118 Holdings Ltd. Operating (Credit) Line

Because revenue from solar facilities is very seasonal (much higher in the summer than in the winter), and because the timing of Solar Bond issuance does not necessarily coincide with refinancing or other capital requirements, CSA 4 has established an agreement with 227118 Holdings Ltd. (owned and controlled by Mike Brigham, President of SolarShare), as a source of working capital. Up to \$5,000,000 is available from this facility. The facility is unsecured and is subordinate to Debt Financing and Solar Bonds. The facility may be cancelled or withdrawn at the discretion of the lender. Please see Schedule L – 227118 Holdings Ltd. Operating (Credit) Line for a copy of the credit agreement.

6.5 Morgan Solar and Solera Loans

Two small loans from Morgan Solar, the tracker manufacturer for the Sundance Projects, and Solera Sustainable Energies Company, the Project developer for the Orenda Project are currently in place. See Section 16.9 and 16.10 below for further details on these loans.

6.6 The Plan if Solar Bonds Sales are Insufficient

If for any reason there are insufficient Solar Bonds raised to meet the financing requirements of SolarShare before this Offering Statement expires, then SolarShare intends to seek other suitable financing arrangements with private lenders, financial institutions, or other sources.

If suitable financing were not able to be obtained, SolarShare would seek to sell assets in the existing market for Ontario solar FIT projects to repay Solar Bonds and commercial debts as required.

6.7 Debt Ranking

The ranking of debt obligations is described in the table below.

Table 5: Ranking of Debt Obligations

	First Rank	Second Rank
CSA 1	Debt Financing	Holder of Solar Bonds
CSA 2	Debt Financing	Holder of Solar Bonds
CSA 4	Holder of Solar Bonds	Unsecured lenders, such as 227118 Holdings Ltd.
CSA 5	Holder of Solar Bonds	
SolarShare	Holder of Solar Bonds	Unsecured lenders, such as Morgan Solar and Solera

7 RISK FACTORS

This is a high-risk investment as there is no guarantee that SolarShare will be able to pay interest or repay any of the Solar Bonds offered under this Offering Statement. SolarShare will be subject to a number of risks common to business as well as specific risks associated with electricity generation and solar PV technology. They are listed below.

COVID-19 has not and is not expected to prevent SolarShare from conducting business as usual.

The following risks could jeopardize investors' financial returns and possibly their investment in Solar Bonds:

1. Repayment of Bonds: There is no assurance that SolarShare will be able to repay any of the Solar Bonds offered under this Offering Statement. Investors who require guaranteed returns from their investments with no risk should not purchase Solar Bonds.
2. Cash Flow and Solvency: There is no certainty that SolarShare will maintain positive cash flow and that SolarShare will be able to pay interest or redeem its Solar Bonds. In addition, there can be no guarantee SolarShare will be able to meet the solvency tests mandated by the Co-operative Corporations Act when a request is made by a member to redeem their Solar Bonds or when membership ceases. As such, there can be no assurance SolarShare will be able to redeem Solar Bonds when so requested or when membership ceases.
3. Revenue: SolarShare projects positive cash flow over the life of its Projects, and SolarShare's structure of SPVs is intended to mitigate the impact of lower than expected revenue on SolarShare. However, these projections are based on a number of assumptions, and if any one or more of these assumptions turns out to be significantly in error then SolarShare may be unable to manage its cash flow requirements. This could jeopardize the viability of a Project or SolarShare's portfolio of Projects and/or its expected returns.
4. Defaults on Project Debt: The CSA 1 and CSA 2 Debt Financing loan agreements include Debt Service Coverage Ratio covenants. Failure to maintain the DSCR at or above the required levels triggers an increase in Debt Service Reserve Requirement and/or an event of default under these loan agreements, depending on the level of severity of the debt service shortfall. In the year 2018, operational issues and poor weather conditions caused the DSCR to fall below 1.50 for both CSA 1 and CSA 2, requiring an increase in the required cash reserves for both loans. At this time, the DSCR for CSA 1 and CSA 2 have been above 1.50 for two consecutive quarters. Should the DSCR for either CSA 1 or CSA 2 fall to less than 1.20, the Debt Financing loan would be in default and the lender may recall the loan using any specified remedy.
5. Performance Risk: In the event that any of the solar facilities do not generate the anticipated amount of electricity due to insufficient sunlight, underperformance of the systems or other causes beyond the control of SolarShare, Project Revenues could be adversely affected. The financial projections are significantly dependent on the quality of

the solar projections for each system site. There is no assurance that the solar facilities, when placed in the same general locale as the data utilized to predict solar intensity, will experience the predicted production of electricity.

6. Operations and Maintenance: The ongoing maintenance of solar facilities and general administration of SolarShare and its SPVs are critical to achieve SolarShare's estimated production numbers and financial projections. While SolarShare has endeavored to budget adequately for all general administrative, operations and maintenance expenses including equipment replacement expenses and contingency fees, unforeseen events could cause these expenses to exceed projections. This could jeopardize the viability of a Project or portfolio and/or its expected returns.
7. Equipment Failure: The equipment used in SolarShare's Projects is from reputable, high-quality manufacturers, and is expected to be low maintenance and reasonably trouble-free, with the exception of the power inverters, which are planned to be replaced in SolarShare's financial projections. The solar panels are covered by a warranty for a minimum of twenty years. However, should issues with the solar panels and/or inverters develop, there could be a loss of energy production and associated revenues for the period of time a failure occurs. This loss may not be fully recoverable through warranty or insurance, and needed repairs or upgrades to equipment and software may not be readily available. A future pandemic may affect the timely availability of parts for replacement or repair.
8. Priority of Lenders: The Solar Bonds and the Solar Bonds Security will be subordinate to the indebtedness under and security for Debt Financing, but have priority over loans payable to construction lenders and other debt lenders (operating line, Morgan Solar and Solera loans). In event of a default or bankruptcy, the indebtedness under the Debt Financing will be repaid ahead of the repayment of interest and principal under the Solar Bonds then outstanding.
9. Interest Rate Fluctuation: If prevailing market interest rates rise significantly, raising capital to repay the Solar Bonds as they mature with the sale of new Solar Bonds may prove difficult. If the interest paid on newly-issued Solar Bonds were to rise higher than 5.0% in 2024 and remain at that level for the balance of the FIT Contract terms, Solar Bonds may not be repaid in full or when due. If this were to occur, repayment would be remitted in the following order of priority: Debt Financing, then Solar Bonds and then unsecured loans. Repayment will be subject to the availability of replacement funds, and the amounts available for such purpose in TREC's Renewable Energy Fund. This risk diminishes over time as cash surpluses increase.
10. Failure to Raise Sufficient Capital: There are no assurances that SolarShare will be able to raise sufficient capital from the proceeds of this and future Offering Statements and/or Debt Financing to meet refinancing and other capital requirements of its (and the SPVs') businesses, including repayment by SolarShare of maturing Solar Bonds, or that the terms and conditions of that financing will not change in a significantly negative way. If unable to raise additional funds under a future offering statement, SolarShare would meet its

financial obligations by soliciting financing from other sources (for example, private lenders and credit unions that have already stated their interest in providing credit lines), and / or selling parts of its portfolio into the robust existing market for Ontario FIT projects.

11. Currency Risk: Solar facility components are often imported and are paid in a foreign currency, therefore changes to the value of the Canadian dollar could potentially have an adverse material impact and adverse effect on the cost of future Projects or on the component costs for maintenance and replacement.
12. Depreciation of Assets: Investors are advised that the Board is not establishing any reserve for the replacement of equipment, other than inverters, tracker parts and ordinary maintenance items and is depreciating the value of the system to zero at the end of its 20th year of operation. However, Solar PV systems have long operating life spans and it is anticipated that in its 21st year of operation and for some time beyond, any SolarShare Project should produce electricity between 80% and 90% of its initial rated output which will have some monetary value. Since at a future date, the residual value of the systems and any production cannot be determined today, no value has been assigned to them.
13. Financial Projections: This Offering Statement contains forward-looking statements and projections that involve numerous assumptions, hypotheses, risks and uncertainties including, among others, those set out in this section as "Risk Factors". These projections are based upon assumptions and hypotheses that both SolarShare's Board and experts consulted by the long-term debt lenders believe to be reasonable and which are consistent with the forecasts and projections prepared by SolarShare. No representations or warranties are given that these projections will actually be achieved. Actual results will vary, perhaps in a materially negative way, from these forecasts and projections. The assumptions upon which these forecasts and projections are based may change, whether due to circumstances beyond the control of SolarShare or otherwise. Investors are advised not to rely solely upon these projections in making their investment decision.
14. Income Tax Risk: In Canada, income tax exemption for a non-profit organization is obtained by structuring and operating the organization in accordance with the requirements of the Income Tax Act, but such structuring and operation may be challenged if the requirements for that exemption, as interpreted by Canada Revenue Agency and/or the courts, are not complied with.
15. Long-Term Investment: There is no market into which these securities may be sold. Solar Bonds should be considered long-term investments and are not suitable for investors who may desire or need a more liquid investment.
16. Major Contracts: SolarShare and its SPVs have entered into contracts with others to operate parts of their respective Projects. Non-compliance by such contractors and the availability of remedies in the case of default could materially affect SolarShare's financial projections.

17. Management: SolarShare is a small organization and may have difficulty attracting and retaining high-calibre management and staff.
18. Market for Securities: There is currently no market for the Solar Bonds offered and the development of such a market cannot be assumed. Solar Bonds are an illiquid security. No membership may be transferred without the express consent of the Board. Management may use reasonable efforts to match buyers and sellers, but no guarantee is offered that holders of Bondholders will be able to sell them if they need to, regardless of the need, or if they want to.
19. New Project Performance: SolarShare may invest in renewable energy or ancillary assets such as battery storage facilities as permitted by its by-laws. While SolarShare does not plan to make investments that do not enhance the projected long-term financial position of SolarShare, there is no assurance that any newly acquired asset will perform financially as expected.
20. Property Taxes: The Ontario Government has declared that there will be no property tax payable on rooftop solar PV systems or ground mount systems that are smaller than 10kW. This may change in the future and such unforeseen taxes could adversely affect SolarShare's financial projections.
21. Registered Account Eligibility Risk: Solar Bonds are RRSP and TFSA eligible because they are fully secured by mortgages on real property at the time the Solar Bonds are issued. There is a risk that Canada Revenue Agency might determine that solar PV installations are not fixtures, and therefore Solar Bonds are not secured against real property. There is a risk that the Solar Bonds cease to be fully secured if the total value of Solar Bonds outstanding becomes greater than the value of the property securing the Solar Bonds. This could happen if SolarShare sells more bonds than it has (directly or through its SPVs or joint ventures in which it is participating) completed projects to secure them, or if SolarShare is not diligent in buying back Solar Bonds to match the decreasing value of the mortgages that back them.
22. Regulatory Risks: The IESO regulates Ontario's electricity system, and there are risks associated with non-compliance as outlined below:
 - a. *Domestic Content* – In order to maintain the validity of FIT 1 and FIT 2 contracts, each generation facility must meet the domestic content requirements that were present at the time of the FIT Contract approval, as outlined by the IESO (this requirement does not apply to FIT 3 and later). SolarShare must, for the duration of each FIT 1 Contract and FIT 2 Contract, maintain records that verify that the domestic content requirements have been met. SolarShare engaged a third party to review these records for completeness, and those FIT 1 and FIT 2 projects held by CSA 1 and CSA 2 have been further scrutinized during long term commercial debt due diligence processes. However, the IESO can audit these records at any time and if it deems that the records are insufficient, the FIT Contract can be cancelled. SolarShare has made reasonable efforts to ensure the proper

documentation has been maintained, but there are no absolute assurances that the IESO will deem this sufficient in the case of an audit.

- b. *FIT Contract Risk* – IESO and Ontario government regulations and policies may change. In 2009, the Government of Ontario enacted the Green Energy and Green Economy Act, which authorized incentives for renewable energy projects (including FIT Contracts) in pursuit of the policy goals including ending the use of coal, attracting investment and job creation. The GEA was repealed in late 2018 and the FIT Contracts for projects that had not yet reached construction phase (“Notice to Proceed”) were cancelled. While FIT Contracts for post-COD operations are legally binding obligations, there is no absolute assurance that the IESO or the Ontario government will not attempt to curtail or cancel contracts or change the regulations and policies.
 - c. *Membership Risk* – SolarShare’s Community Participation Projects require that SolarShare maintain a minimum number of qualifying members in each Project’s host jurisdiction. SolarShare regularly monitors membership to ensure ongoing compliance and the IESO provides a grace period to come into compliance; however, FIT Contracts may be in jeopardy should SolarShare fail to maintain the required membership.
23. Roof-top Destruction: In some of SolarShare’s leases, should the building under a SolarShare rooftop installation be so significantly damaged by fire or another casualty that its owner decides to demolish it, rather than rebuild, the lease for that rooftop may be terminated. SolarShare’s (and the SPVs’) insurance would replace any solar equipment damaged by such casualty and provide some revenue protection under business interruption coverage up to 12 months. However, should the building not be rebuilt, SolarShare may lose the revenues for the remaining duration of the FIT Contract. This risk only applies to a portion of the portfolio, is a common risk shared by all in the solar industry, and the possibility of it occurring is remote.
24. Sinking Fund: No sinking fund or reserve has been established to redeem maturing Solar Bonds. SolarShare plans to redeem maturing Solar Bonds out of its operating income, the sale of new Solar Bonds or by using its revolving demand facility. There is no guarantee that these funds will be sufficient to redeem all Solar Bonds as they come due. In the event that SolarShare is unable to redeem Solar Bonds, holders of Solar Bonds may not receive payments of principal and/or interest.
25. Warranties: SolarShare has endeavoured to choose products and technologies with solid warranties from reputable companies with a track record of performance and that are in good financial health; however, there is no assurance that SolarShare’s suppliers will not go out of business and thus be unable to honour their warrantees, which could lead to increased costs and potential loss of revenues for SolarShare. In particular, the Waterview Project uses Satcon inverters and Uni-Solar panels and both of these companies are now bankrupt and unable to service the warranties.

26. Unknown Risk Factors: SolarShare may also be subject to other unknown or unforeseen risk factors that could potentially affect its profitability and solvency. Some of these risk factors could include, but are not limited to, failure to comply with new or revised governing statutes, or climate variability resulting in reduced performance. SolarShare's plans include contingency funds to mitigate any adverse unforeseen risk factors that may negatively affect SolarShare's profitability and solvency; however, these funds may not be sufficient.

8 DESCRIPTION OF CAPITAL STRUCTURE

SolarShare is a non-profit co-operative corporation and has no share capital.

A description of the Solar Bonds being offered can be found in Section 9 below. Securities and other debt obligations of SolarShare are described in Section 13 below, including operating (credit), debt financing for CSA 1 and CSA 2, and other loans.

Figure 7: The Wintergreen project, near Kingston.

9 DESCRIPTION OF SECURITIES OFFERED

9.1 Solar Bonds

SolarShare is offering to sell Solar Bonds to its members and to corporations and, in its sole discretion, may choose to sell or not any of those bonds described below. Corporations may purchase the bonds, but are not permitted to be members of SolarShare, in order to meet the IESO’s requirement for renewable energy co-ops.

The form of the Solar Bonds is attached in Schedule C – Form of 3-Year, 4-YEAR and 5-Year Solar Bonds (Simple Interest). The minimum individual purchase is \$1,000. The following tables describe the Solar Bonds being offered in detail.

Table 6: Description of Solar Bonds Offered

DESCRIPTION OF 3-YEAR 3%, 3-YEAR 3.5%, 3-YEAR 4%, 3-YEAR 4.5%, 3-YEAR 5%, 4-YEAR 3%, 4-YEAR 3.5%, 4-YEAR, 4%, 4-YEAR 4.5%, 4-YEAR 5%, 5-YEAR 3%, 5-YEAR 3.5%, 5-YEAR 4%, 5-YEAR, 4.5% AND 5-YEAR, 5% SOLAR BONDS OFFERED	
Minimum Offering:	Nil
Maximum Offering:	\$10,000,000
Minimum Single Purchase:	\$1,000
Maximum Single Purchase:	No maximum unless indicated at time of purchase request.
Solar Bonds Security	<p><u>General Overview of Security</u></p> <p>SolarShare’s repayment of the Solar Bonds, together with all interest and any other amounts owing under the Solar Bonds, are secured by a Security Interest in certain assets, undertaking and property, both real property and personal property, used in connection with the Projects (that is, the Projects owned and operated by SolarShare and the SPVs).</p> <p>Where a Project has been acquired by or transferred to an SPV, such as CSA 1 or CSA 2, SolarShare has taken steps to ensure that the Bondholders maintain security over these Projects in the form of the Solar Bonds Security. The Solar Bonds Security is held by the Trustee pursuant to the Trust Agreement.</p> <p>Since SolarShare is the sole shareholder of the SPVs, the Solar Bonds Security given by the SPVs secures SolarShare’s obligations to the Bondholders. The fact that SolarShare</p>

DESCRIPTION OF 3-YEAR 3%, 3-YEAR 3.5%, 3-YEAR 4%, 3-YEAR 4.5%, 3-YEAR 5%, 4-YEAR 3%, 4-YEAR 3.5%, 4-YEAR, 4%, 4-YEAR 4.5%, 4-YEAR 5%, 5-YEAR 3%, 5-YEAR 3.5%, 5-YEAR 4%, 5-YEAR, 4.5% AND 5-YEAR, 5% SOLAR BONDS OFFERED

is the only shareholder of each SPV allows SolarShare to have control over each SPV's affairs. The constitutional documents of each SPV provides that their assets are prevented from being transferred, and also prohibits each from amalgamating with, a corporation unless (in either case) it is a non-profit corporation whose objects include the promotion and development of renewable energy resources. The shares, or beneficial interest in shares, in the capital of the SPVs may only be transferred to a non-profit corporation whose objects include the promotion and development of renewable energy resources. It is a requirement imposed by the Debt Financing lenders, however, that the shares in the capital of CSA 1 and CSA 2 be transferable to the lender that has made the Debt Financing loan in the event of a default under the terms of the loan. In that event, amendments to the bylaws may be made to eliminate the transfer constraints.

The scope of the Solar Bonds Security is set out in the security agreements and other charges / mortgages that create the Security Interest in, and encumber, the assets, undertaking and property used in connection with the Projects, and is described in general terms below.

No changes in the Solar Bonds Security can be made without sufficient Bondholders' consent by vote as set out in the Trust Agreement.

Scope of Solar Bonds Security

The Solar Bonds Security consists of the following:

- a mortgage of each lease of property where a Project is located, which mortgage is registered in the Land Registry Office in Ontario where the Project is located (each such mortgage is called a "**Project Leasehold Mortgage**", and collectively called the "**Project Leasehold Mortgages**", and a reference to a Project Leasehold Mortgage includes as it may be amended from time to time);
- a mortgage of a parcel of land comprising Property Identifier Number 61243-0064 (LT) in Timiskaming, Ontario, which mortgage was registered as Instrument Number DT81331 on April 7, 2022 (the "**Timiskaming Mortgage**");
- a mortgage of a parcel of land comprising Property Identifier Numbers 57328-0065 (LT) and 57328-066 (LT) in Braeside, Ontario, which mortgage was registered as Instrument Number RE274958 on April 1, 2021 (the "**Renfrew Mortgage**");
- with respect to the FIT projects owned by each of the SPVs, by a general security agreement made by each SPV in favour of the Trustee, being a Security Interest in all of the assets, undertaking and property of each of the SPVs related to the applicable SPV's Projects only, which Security Interest is perfected pursuant to the Personal Property Security Act of Ontario (each such Security Interest is referred to

DESCRIPTION OF 3-YEAR 3%, 3-YEAR 3.5%, 3-YEAR 4%, 3-YEAR 4.5%, 3-YEAR 5%, 4-YEAR 3%, 4-YEAR 3.5%, 4-YEAR, 4%, 4-YEAR 4.5%, 4-YEAR 5%, 5-YEAR 3%, 5-YEAR 3.5%, 5-YEAR 4%, 5-YEAR, 4.5% AND 5-YEAR, 5% SOLAR BONDS OFFERED

as a “SPV FIT Project Security Interest” and collectively referred to as the “SPV FIT Projects Security Interests”);

- by a general security agreement made by SolarShare in favour of the Trustee, a Security Interest granted by SolarShare in each SolarShare Joint Venture Interest (a “Joint Venture Security Interest” , and collectively called the “Joint Venture Security Interests”);
- with respect to the FIT projects that SolarShare owns and operates directly, by a general security agreement made by SolarShare in favour of the Trustee, being a Security Interest in all of the assets and property of SolarShare related to its FIT projects, which Security Interest is perfected pursuant to the Personal Property Security Act of Ontario (each such Security Interest is referred to as a “SolarShare FIT Project Security Interest” and collectively referred to as the “SolarShare FIT Projects Security Interests”); and
- with respect to the MicroFIT projects owned by SolarShare, by a general security agreement made by SolarShare in favour of the Trustee, being a Security Interest in all of the assets and personal property of SolarShare related only to the MicroFIT projects (and not related to any of the FIT projects), save the MicroFIT contracts themselves, which are not assignable, which Security Interest is perfected pursuant to the Personal Property Security Act of Ontario (each such Security Interest is referred to as a “MicroFIT Project Security Interest” and collectively referred to as the “MicroFIT Projects Security Interests”).

In each Project that has been financed by Debt Financing, the Solar Bonds Security **rank second** behind the leasehold mortgage / charge granted as security for the Debt Financing. This means that the Project Leasehold Mortgages and other security for the FIT projects owned and operated by CSA 1 and CSA 2 **rank second** behind the charges / mortgages of leases and other security granted by CSA 1 and CSA 2 to, respectively, Equitable Life Insurance (for the CSA 1 Debt Financing) and CorpFinance International (for the CSA 2 Debt Financing).

The Project Leasehold Mortgages are different from traditional mortgages on appreciating assets. A traditional mortgage is usually applied to appreciating assets such as land, whereas this mortgage is on a lease and on depreciating assets (the solar generating equipment), and so the security for the Bondholders will decline over time and may have little value at the time the principal on the bonds is redeemed. Since the value of the security declines over time, the cash position of SolarShare becomes more important as the source of security for the repayment of the principal.

DESCRIPTION OF 3-YEAR 3%, 3-YEAR 3.5%, 3-YEAR 4%, 3-YEAR 4.5%, 3-YEAR 5%, 4-YEAR 3%, 4-YEAR 3.5%, 4-YEAR, 4%, 4-YEAR 4.5%, 4-YEAR 5%, 5-YEAR 3%, 5-YEAR 3.5%, 5-YEAR 4%, 5-YEAR, 4.5% AND 5-YEAR, 5% SOLAR BONDS OFFERED	
	<p>The Project Leasehold Mortgages do not include a charge / mortgage of lease in favour of the Trustee for FIT projects that SolarShare operates through a joint venture. As noted above, the Solar Bonds Security does include a Security Interest granted by SolarShare in each SolarShare Joint Venture Interest.</p> <p>The Solar Bonds Security is held by the Trustee, in trust for all Bondholders, pursuant to the Trust Agreement (see Schedule B – Terms of Trust Agreement).</p>
Interest Rate	<p>All 3-Year, 3% Solar Bonds earn simple interest at the rate of 3% per year (the “3-Year 3% Interest Rate”), all 3-Year, 3.5% Solar Bonds earn simple interest at the rate of 3.5% per year (the “3-Year 3.5% Interest Rate”), all 3-Year, 4% Solar Bonds earn simple interest at the rate of 4% per year (the “3-Year 4% Interest Rate”), all 3-Year 4.5% Solar Bonds earn simple interest at the rate of 4.5% per year (the “3-Year 4.5% Interest Rate”), all 3-Year 5% Solar Bonds earn simple interest at the rate of 5% per year (the “3-Year 5% Interest Rate”), all 4-Year, 3% Solar Bonds earn simple interest at the rate of 3% per year (the “4-Year 3% Interest Rate”), all 4-Year, 3.5% Solar Bonds earn simple interest at the rate of 3.5% per year (the “4-Year 3.5% Interest Rate”), all 4-Year, 4% Solar Bonds earn simple interest at the rate of 4% per year (the “4-Year 4% Interest Rate”), all 4-Year 4.5% Solar Bonds earn simple interest at the rate of 4.5% per year (the “4-Year 4.5% Interest Rate”), all 4-Year 5% Solar Bonds earn simple interest at the rate of 5% per year (the “4-Year 5% Interest Rate”), all 5-Year 3% Solar Bonds earn simple interest at the rate of 3% per year (the “5-Year 3% Interest Rate”), all 5-Year 3.5% Solar Bonds earn simple interest at the rate of 3.5% per year (the “5-Year 3.5% Interest Rate”), all 5-Year 4% Solar Bonds earn simple interest at the rate of 4% per year (the “5-Year 4% Interest Rate”), all 5-Year, 4.5% Solar Bonds earn simple interest at the rate of 4.5% per year (the “5- Year 4.5% Interest Rate”) and all 5-Year, 5% Solar Bonds earn simple interest at the rate of 5% per year (the “5- Year 5% Interest Rate”) calculated and payable as outlined below. Members/investors can choose to hold Solar Bonds either directly and personally, or in a non-registered investment account.</p> <ul style="list-style-type: none"> • Solar Bonds that are held directly by Bondholders earn simple interest, calculated and paid semi-annually at, as applicable, the 3-Year 3% Interest Rate, 3-Year 3.5% Interest Rate, 3-Year 4% Interest Rate, 3-Year 4.5% Interest Rate, 3-Year 5% Interest Rate, the 4-Year 3% Interest Rate, the 4-Year 3.5% Interest Rate, 4-Year 4% Interest Rate, 4-Year 4.5% Interest Rate, 4-Year 5% Interest Rate, 5-Year 3% Interest Rate, 5-Year 3.5% Interest Rate, 5-Year 4% Interest Rate, 5-Year 4.5% Interest Rate or 5-Year 5% Interest Rate; • Solar Bonds held in investment accounts or otherwise than outlined above earn simple interest at, in the case of the 3-Year 3% Solar Bond, the 3-Year 3% Interest Rate, in the case of the 3-Year 3.5% Solar Bond, the 3-Year 3.5%

DESCRIPTION OF 3-YEAR 3%, 3-YEAR 3.5%, 3-YEAR 4%, 3-YEAR 4.5%, 3-YEAR 5%, 4-YEAR 3%, 4-YEAR 3.5%, 4-YEAR, 4%, 4-YEAR 4.5%, 4-YEAR 5%, 5-YEAR 3%, 5-YEAR 3.5%, 5-YEAR 4%, 5-YEAR, 4.5% AND 5-YEAR, 5% SOLAR BONDS OFFERED	
	<p>Interest Rate, in the case of the 3-Year 4% Solar Bond, the 3-Year 4% Interest Rate, in the case of the 3-Year 4.5% Solar Bond, the 3-Year 4.5% Interest Rate, in the case of the 3-Year 5% Solar Bond, the 3-Year 5% Interest Rate, in the case of the 4-Year 3% Solar Bond, the 4-Year 3% Interest Rate, in the case of the 4-Year 3.5% Solar Bond, the 4-Year 3.5% Interest Rate, in the case of the 4-Year 4% Solar Bond, the 4-Year 4% Interest Rate, in the case of the 4-Year 4.5% Solar Bond, the 4-Year 4.5% Interest Rate, in the case of the 4-Year 5% Solar Bond, the 4-Year 5% Interest Rate, in the case of the 5-Year 3% Solar Bond, the 5-Year 3% Interest Rate, in the case of the 5-Year 3.5% Solar Bond, the 5-Year 3.5% Interest Rate, in the case of the 5-Year 4% Solar Bond, the 5-Year 4% Interest Rate, in the case of the 5-Year 4.5% Solar Bond, at the 5-Year 4.5% Interest Rate, and in the case of the 5-Year 5% Solar Bond, at the 5-Year 5% Interest Rate, calculated and paid semi-annually.</p> <p>Interest on the 3-Year 3% Solar Bonds, 3-Year 3.5% Solar Bonds, 3-Year 4% Solar Bonds, 3-Year 4.5% Solar Bonds, 3-Year 5% Solar Bonds, 4-Year 3% Solar Bonds, 4-Year 3.5% Solar Bonds, 4-Year 4% Solar Bonds, 4-Year 4.5% Solar Bonds, 4-Year 5% Solar Bonds, 5-Year 3% Solar Bonds, 5-Year 3.5% Solar Bonds, 5-Year 4% Solar Bonds, 5-Year 4.5% Solar Bonds and on the 5-Year 5% Solar Bonds, at the applicable rate described above, is simple interest on the principal sum (the "Principal Sum") stated on the certificate for the applicable Solar Bond (the "Solar Bond Certificate") or the outstanding balance of the Principal Sum, whichever is less. Interest will be calculated and payable semi-annually, in arrears, in the manner and at the times stated on Solar Bond Certificate.</p>
Terms and Redemption	<p>3-Year, 3% Solar Bonds, 3-Year, 3.5% Solar Bonds, 3-Year, 4% Solar Bonds, 3-Year 4.5% Solar Bonds and 3-Year 5% Solar Bonds issued under this Offering Statement mature 3 years after the date of issue. 4-Year, 3% Solar Bonds, 4-Year, 3.5% Solar Bonds, 4-Year, 4% Solar Bonds, 4-Year 4.5% Solar Bonds and 4-Year 5% Solar Bonds issued under this Offering Statement mature 4 years after the date of issue. 5-Year, 3% Solar Bonds, 5-Year, 3.5% Solar Bonds, 5-Year, 4% Solar Bonds, 5-Year, 4.5% Solar Bonds and 5-Year 5% Solar Bonds issued under this Offering Statement mature 5 years after the date of issue.</p> <p>The principal invested by bondholders may be prepaid by SolarShare at its option, in whole or in part, at any time, without penalty, but including interest accrued to the date of prepayment.</p> <p>To address concerns that Debt Financing lenders may raise in light of possible future market interest rate fluctuations, principal repayment on maturity of the principal of the Solar Bonds may not occur until some later date (after maturity) when SolarShare</p>

DESCRIPTION OF 3-YEAR 3%, 3-YEAR 3.5%, 3-YEAR 4%, 3-YEAR 4.5%, 3-YEAR 5%, 4-YEAR 3%, 4-YEAR 3.5%, 4-YEAR, 4%, 4-YEAR 4.5%, 4-YEAR 5%, 5-YEAR 3%, 5-YEAR 3.5%, 5-YEAR 4%, 5-YEAR, 4.5% AND 5-YEAR, 5% SOLAR BONDS OFFERED	
	is able to do so or SolarShare has obtained replacement capital which will enable it to make such repayment. Such a decision would be made by the Board. The rights of the Bondholders are not otherwise affected by such a postponement and their outstanding bonds will continue to accrue interest at the indicated rate.
Rank	<p>First: Debt Financing (CSA 1 & CSA 2)</p> <p>Second: Solar Bonds</p> <p>Third: Other Unsecured Lenders</p> <p>The Solar Bonds will rank equally with each other but will rank second (including the Solar Bonds Security) to the indebtedness under, and the security for, all Debt Financing made to CSA 1 and CSA 2.</p> <p>Solar Bonds rank ahead of other obligations as described in Section 6.7 above, including unsecured private lenders, the operating (credit) line and the contribution of surplus to TREC's Renewable Energy Fund.</p>
Transfer	Subject to a \$50 administration fee and approval from the Board. Such approval shall not unreasonably be withheld, provided the transfer is to another member of SolarShare.
Dissolution	In the event of the dissolution or liquidation of SolarShare, the Bondholders shall be entitled to be paid, after the retirement of the senior debt, the amount of principal outstanding, plus any interest earned but unpaid. Upon payment of such amount, the holders of Bonds shall not be entitled to any further share in the distribution of the assets of SolarShare.
Voting Rights	Bondholders who are members of SolarShare have a right to one vote per member at all meetings of SolarShare members, irrespective of the Solar Bond amount held.

Private Lenders

SolarShare has previously borrowed, and may continue to borrow from private lenders such as Community Power Capital or 227118 Holdings Ltd. for operations, construction, acquisitions or for any other reason. This debt is not offered to members but to a specific lender.

This debt may be repaid or refinanced with a combination of funds from the sale of Solar Bonds, further Debt Financing, surplus cash, and/or other means. Please see Section 16 below for details.

10 METHOD OF THE SALE OF SECURITIES

The Solar Bonds being offered and sold pursuant to this Offering Statement will be sold exclusively by agents of SolarShare. No commission or discounts are permitted for the sale of securities.

Figure 8: One of the Sundance Projects utilizing Morgan Solar Savanna trackers.

11 DESCRIPTION OF THE MARKET IN WHICH THE SECURITIES MAY BE SOLD

There is no market through which Solar Bonds may be sold and none is expected to develop. Purchasers may not be able to resell Solar Bonds purchased pursuant to this Offering Statement. No Solar Bonds may be transferred without the express consent of the Board.

Figure 9: One of the SunFields 12 kW DC MicroFIT projects.

12 MINIMUM AND MAXIMUM AMOUNTS

There is no minimum amount SolarShare seeks to raise via this Offering. SolarShare may meet its financial obligations by soliciting financing from other sources (for example, private lenders and/or other commercial lenders), and/or selling parts of its portfolio into the robust existing market for Ontario FIT projects.

The minimum and maximum single purchases permitted for the Solar Bonds offered pursuant to this Offering Statement are as follows:

Table 7: Minimum and Maximum Single Purchase

	3-YEAR SOLAR BONDS	4-YEAR SOLAR BONDS	5-YEAR SOLAR BONDS
Minimum Single Purchase	\$1,000	\$1,000	\$1,000
Maximum Single Purchase	No maximum unless indicated at time of purchase request.	No maximum unless indicated at time of purchase request.	No maximum unless indicated at time of purchase request.

13 SECURITIES AND OTHER DEBT OBLIGATIONS OF SOLARSHARE

The following table describes the amount and particulars of any securities, mortgages, bonds, debentures, or other debt obligations of SolarShare as at December 31, 2022.

Table 8: Debt Obligations

CREDITOR	AMOUNT	DESCRIPTION
CSA 1 Debt Financing	\$2,326,089	Equitable Life Insurance is the provider of \$4.2 million Debt Financing for the five Projects held in CSA 1. The term of the loan is 16 years, starting at February 24, 2015, with an interest rate of 4.789% per annum. Blended payments of principal and interest are made monthly.
CSA 2 Debt Financing	\$9,231,306	CorpFinance International is the provider of \$13.2 million Debt Financing for the nine Projects held in CSA 2. The term of the loan is 15 years starting at September 6, 2017, with an interest rate of 5.262% per annum. Blended payments of principal and interest are made monthly.
Solar Bondholders	\$39,882,524	These existing Solar Bonds are for 5 year terms, carrying 3%, 4%, 4.5% or 5% annual interest rates, and 15-year (self-amortizing) terms, carrying an annual interest rate of 6%.
227118 Holdings Ltd.	\$0	CSA 4 established an agreement with 227118 Holdings Ltd. as a source of working capital. Up to \$5,000,000 is available from this facility. The credit facility is unsecured and may be withdrawn or cancelled at any time by the lender. As of December 31, 2022, there was no loan balance outstanding.
Solera Sustainable Energies Company	\$288,649	As described in Section 16.9 below, this deferred payment acts as a loan from Solera to SolarShare, transferring some specific risk for the Orenda Project to Solera. The original value of the loan was \$341,915, decreasing over time with a term of 11 years, starting October 27, 2015. Interest for the loan is calculated as the amount that would equal the sum that would place Solera in the same position as it would have been had SolarShare paid the full purchase price for the Orenda Project on closing, using a discount rate of 2.5%.
Morgan Solar	\$55,572	As described in Section 16.10 below, this loan is designed to guarantee that replacement parts for the Morgan Solar Savanna dual-axis trackers are available for the life of the ten-year warranty. The original value of the loan was \$109,637, and the term of the loan is 10 years, starting September 30, 2017, with an interest rate of 5.5% per annum.

CREDITOR	AMOUNT	DESCRIPTION
Claremont	\$89,629	A non-revolving term loan was made available to the Claremont Solar Joint Venture effective September 2, 2016. The loan is for working capital purposes in connection with the Claremont Project. The loan was for an aggregate amount of up to \$134,518 and bears an interest rate of 5% per annum on the unpaid principal amount.
TOTAL	\$51,873,661	

A schedule listing projected principal debt repayments by year and instrument is provided in Table 9 below. With respect to Solar Bonds, the debt repayments shown are based Solar Bonds outstanding as of December 31, 2022. New Solar Bonds or other financing will be used to refinance some of the Solar Bonds as they mature. The operating line does not have a fixed repayment schedule and so is not included in the table, but no loan balance was outstanding as of December 31, 2022.

Table 9: Schedule of Projected Debt Repayments (in thousands)

14 MATERIAL LEGAL PROCEEDINGS TO WHICH SOLARSHARE IS A PARTY

SolarShare is not party to any material legal proceedings.

Figure 10: SolarShare members, former Aurora Mayor Geoffrey Dawe, and partners open the Stronach project.

15 MATERIAL INTERESTS OF DIRECTORS AND OFFICERS

15.1 In the Operation of SolarShare

Each of the directors of SolarShare is a member of SolarShare.

Mike Brigham, President, plays a strong management role in the daily activities of SolarShare, and does so as a volunteer. Mr. Brigham also owns 227118 Holdings Limited, which provides an operating (credit) line to SolarShare. Please see Schedule L – 227118 Holdings Ltd. Operating (Credit) Line for a copy of the credit agreement.

Please see Table 10 below for more information.

15.2 In the Securities Offered under this Offering Statement

Directors of SolarShare will be offered the securities to be issued under this Offering Statement on the same terms as available to other members.

The Board believes that it is important to disclose all related interactions between SolarShare and its directors and has developed practices that promote good corporate governance while ensuring that SolarShare achieves its mission. Table 10 below profiles Board members' affiliations and related party transactions.

Table 10: Material Interests of Directors and Officers

16 MATERIAL CONTRACTS

This section describes the material contracts SolarShare is currently party to.

16.1 FIT Contracts

SolarShare's business model is dependent on each of its Projects having a FIT or similar contract that guarantees a 20-year revenue stream from the sale of electricity to the IESO. There are three stages to a FIT Contract: (1) conditional offer, (2) notice to proceed ("NTP"), and (3) Commercial Operation (post-COD). Riskier development work occurs in the first stage, construction in the second, and revenues and refinancing in the third. Once the second stage is achieved, then the FIT Contract is legally binding. All Projects presently held by SolarShare (directly and through the SPVs and the joint ventures) are in the third stage.

16.2 Land Leases

Each of SolarShare's Projects has a 20-year lease with the landowner of the lands on which Project generating facilities are located, which is a requirement of securing a FIT Contract. Specific provisions and lease rates are different for each lease, but there are common elements that ensure the protection of this property right throughout the 20-year FIT Contracts. SolarShare also owns a parcel of land in Timiskaming where a communications tower that is part of the operation of the Sundance sites is located, as well as a parcel of land near Arnprior upon which the Renfrew Project is located.

16.3 Maintenance Contracts

SolarShare has a maintenance contract with Northwind Solutions for most Projects. The contract covers planned services such as annual maintenance, and unplanned services such as emergency repairs.

The emergency and regular maintenance of SunFields (SolarShare's 17 ground mounted MicroFIT projects), Renfrew and Keeler are by contract to Penguin Solar Inc, Bur-Oak Inc. and Zon Engineering respectively.

A number of sub-contractors and local part-time employees provide maintenance services on an as-needed basis.

16.4 EPC Agreements

SolarShare may enter into fixed-price contracts with engineering, procurement and construction (EPC) companies to provide design and installation services for some of its Projects. All EPC firms have been vetted to ensure the quality of their work, as well as engineering and design expertise.

16.5 Trust Agreement for Solar Bondholders

SolarShare has entered into a Trust Agreement with the Trustee pursuant to which the Trustee holds the Solar Bonds Security in trust for the Bondholders. The Trustee as of the date of this Offering Statement is Brian Iler, a lawyer, a former founding director and officer of SolarShare.

The Bondholders, as beneficiaries under the Trust Agreement may, by a vote, instruct the Trustee to realize on the Solar Bonds Security in the event of a default by SolarShare of its obligations. The Trustee is obliged to implement the decision of the beneficiaries.

The Trust Agreement acknowledges that the current Trustee, Mr. Iler, is a director of TREC. He is also a retired partner in Iler Campbell LLP, which is a law firm that provides legal services to SolarShare and the SPVs. He agrees that in the event of any material conflict of interest arising, he will, within ninety days either eliminate such conflicts or resign from his position as Trustee.

In order to ensure transparency, all and any changes to Mr. Iler's financial interests in SolarShare must be approved by the Board and recorded in the minutes of the Board meeting.

The choice of Mr. Iler as Trustee included these factors:

- As an investor in SolarShare, Mr. Iler has an interest in ensuring that SolarShare's obligations to its members/investors and Bondholders are satisfied;
- A trust company charges considerable fees, and requires a significant amount of expensive due diligence;
- Mr. Iler is a lawyer with considerable experience and he has professional fiduciary duties.

The SolarShare Bondholders and TREC, with a decision approved by the holders of seventy-five percent in value of the issued and outstanding Solar Bonds, plus seventy-five percent of the total number of Bondholders and TREC, have the following powers:

1. to direct or authorize the Trustee to exercise any power, right, remedy or authority given to it by the Trust Agreement or the Solar Bonds in any manner specified or to refrain from exercising any such power, right, remedy or authority; and
2. to waive, and direct the Trustee to waive, any default on the part of SolarShare in complying with the provisions of the Trust Agreement or the Solar Bonds, including an Event of Default (as defined in the Trust Agreement).

A meeting of Bondholders and TREC has the power to remove a Trustee, and to appoint one or more replacement trustees.

The terms of the trust agreement are attached as Schedule B – Terms of Trust Agreement

16.6 227118 Holdings Ltd. Loan

SolarShare's monthly revenue depends on the production of electricity from solar energy, which is seasonal and fluctuates somewhat from month to month. To better manage cash flows and reduce interest costs, CSA 4 established a line of credit with a company controlled by the President of SolarShare, Mike Brigham (owner of 227118 Holdings Ltd.). Up to \$5 million is available from this facility. The operating line is unsecured and is ranked behind Debt Financing and Solar Bonds. The operating line may be cancelled or withdrawn at any time by the lender. As of December 31, 2022, there was no balance on the loan. Any operating line debt may be refinanced with a combination of funds from the sale of Solar Bonds, other Debt Financing or

other sources. Please see Schedule L – 227118 Holdings Ltd. Operating (Credit) Line for a copy of the loan agreement.

16.7 Debt Financing for CSA 1

SolarShare has arranged Debt Financing for CSA 1. The \$4,200,000 loan has a 16-year term, to be repaid by equal monthly payments of principal and interest over the term of the loan. The outstanding amount and a schedule of repayments is provided in Section 13 above. A first charge on the assets within CSA 1, including its leases and FIT Contracts, has been pledged as security.

As described in Section 4.9 above, the DSCR for CSA 1 portfolio fell below 1.50 in the fourth quarter of 2021 but remained above the default threshold of 1.20. The DSCR for CSA 1 exceeded 1.50 again in the third quarter of 2022 and remained above 1.50 in the fourth quarter of 2022. Under the terms of the CSA 1 loan, when the DSCR is 1.50 or greater, a reserve of three months principal and interest is set aside. When the DSCR falls below 1.50 (but is still above 1.20), additional funds are deposited into the reserve account, increasing the reserve amount to cover six months principal and interest.

16.8 Debt Financing for CSA 2

SolarShare has arranged Debt Financing for CSA 2. The \$13,194,000 loan has a 15-year term to be repaid by equal monthly payments of principal and interest over the term of the loan. The outstanding amount and a schedule of repayments is provided in Section 13 above. A first charge on the assets within CSA 2, including its leases and FIT contracts, has been pledged as security.

As described in Section 4.9 above, the DSCR for CSA 2 portfolio remained above 1.50 for all of 2021, and fell below 1.50 in the first quarter of 2022, but remained above the default threshold of 1.20. Starting in Q3 2022, the DSCR for CSA 2 again rose above 1.50. As of December 2022, the DSCR for CSA 2 remained over 1.50. Under the terms of the CSA 2 loan, when the DSCR is 1.50 or greater, a reserve of six months principal and interest is set aside. When the DSCR falls below 1.50 (but is still above 1.20), additional funds are deposited into the reserve account, increasing the reserve amount to cover twelve months principal and interest.

16.9 Solera Loan

SolarShare purchased the Orenda Project from Solera Sustainable Energies Company, a solar project development firm. Payment of a portion of the purchase price for the Orenda Project was deferred, which deferred amount acts as a loan from Solera to SolarShare, and transfers risk to Solera should the building on which the Project exists be destroyed and not rebuilt. The original value of the loan was \$341,915 and decreases over time with a term of 11 years, starting on October 27, 2015.

16.10 Morgan Solar Loan

Morgan Solar is the equipment manufacturer for dual-axis trackers used by SolarShare for 11 Projects. This loan from Morgan Solar to SolarShare is designed to guarantee the availability of replacement parts for Morgan Solar's Savanna dual-axis trackers while the trackers are under warranty. Should Morgan Solar be unable to fulfill its warranty, SolarShare has the right to retain

part or all of the outstanding loan value. The value of the loan was originally \$109,637, decreasing over time and has a term of 10 years, starting September 30, 2017.

16.11 Claremont Joint Venture Loan

Ellexicon Energy Inc., one of the joint venturers in the Claremont Joint Venture, offered a non-revolving term loan to the Joint Venture. The loan was effective as of September 2, 2016, and provides an aggregate amount of up to \$134,518. The loan is to be used for working capital purposes in connection with the Claremont Project, and bears an interest rate of 5% per annum on the unpaid principal amount.

16.12 TREC and Tapestry Capital Service Agreement

SolarShare has retained TREC and Tapestry Community Capital to carry out certain functions and services on its behalf including administrative and investment management services.

16.13 TREC Renewable Energy Fund Agreement

A Renewable Energy Fund Agreement has been entered into between TREC and SolarShare. It includes provisions as follows:

1. The TREC Renewable Energy Fund shall provide funding for future projects of SolarShare that have been approved by the Investment Committee from the Fund.
2. TREC's Investment Committee is empowered to determine how the money received by TREC for the Renewable Energy Fund is invested in those future projects.
3. SolarShare will have at a minimum of at least one permanent seat on the Renewable Energy Fund Investment Committee, and up to 50% of the seats on the Investment Committee if and when SolarShare's contribution to the fund is 50% or greater than the total fund amount. Committee seats will be redistributed annually, based on the proportion of investment from the participating co-ops.
4. SolarShare is required at all times to remain a non-profit incorporated under the Co-operative Corporations Act, whose membership is comprised primarily of those persons who have purchased Solar Bonds from SolarShare.
5. SolarShare is required to record its accounting surplus annually as a liability to TREC to be placed into the Renewable Energy Fund. That liability shall be paid out to TREC after the following items:
 - a. SolarShare shall retain enough cash in its accounts to support its reasonable working capital needs.
 - b. SolarShare shall retain sufficient cash in its accounts to pay down loans and/or bank debt as it deems necessary
 - c. SolarShare shall retain sufficient cash to retire member Solar Bonds as it deems necessary
 - d. All residual cash shall be paid to TREC to be placed in the Renewable Energy Fund as settlement of the liability.

While there is an obligation to assign any surpluses to TREC's Renewable Energy Fund, SolarShare is entitled to keep sufficient funds to meet its obligations, which include interest payments on the bonds and repayment of the bonds on their maturity.

SolarShare has not transferred any surplus funds to TREC's Renewable Energy Fund and anticipates that the earliest that such a transfer may occur would be 2035.

The terms of the Renewable Energy Fund Agreement are attached as Schedule K – Terms of Renewable Energy Fund Agreement.

16.14 Community Wealth Non-Profit Corporation

SolarShare has an agreement with Community Wealth Non-Profit Corporation to transfer 25% of the surplus resulting from the operations of nine Projects purchased from the Green Timiskaming Development Co-operative Incorporated. Community Wealth Non-Profit Corporation assisted with the development of those nine Projects and this agreement was reached to recognize these efforts. The Projects consist of eight ground-mounted and one rooftop (Earlton) Project, all of which are now in operation. The surplus is to be calculated by SolarShare and paid at the end of the FIT Contract for these Projects.

16.15 Claremont Joint Venture

SolarShare owns a 51% interest in the Claremont Project, a 100 kW system in operation on the roof of the Claremont Community Centre. With the purchase of the interest in the Project, SolarShare is now party to a joint venture agreement with the other Project owners. The remaining 49% of the Project is owned by Solera Sustainable Energies Company, a solar development company, and Elexicon Energy Inc. (formerly Veridian Connections), the electrical utility covering the Pickering service region.

16.16 Van Kirk Solar Joint Venture

SolarShare owns a 50.9% interest in the 111 Van Kirk and 153 Van Kirk Projects, two 500 kW systems in operation in Brampton. SolarShare is party to a joint venture agreement with the building owner, who owns the remaining 49.1% of the Projects.

16.17 Review of Documents

All agreements related to this Offering Statement, including the Articles of Incorporation, Amendment and Amalgamation, By-Laws of SolarShare, Leases, Joint Venture Agreements and TREC Service Agreements, may be reviewed by any member in person upon request.

17 DISTRIBUTION OF SURPLUS, PATRONAGE RETURNS AND OTHER DISTRIBUTIONS

As a non-profit co-operative, SolarShare is not permitted to distribute any surplus to its members, nor pay patronage dividends. In the event of the dissolution or liquidation of SolarShare, the holders of Solar Bonds shall be entitled to be paid, after the retirement of the prior Debt Financing, the amount of principal outstanding, plus any interest unpaid. Upon payment of the above amount, the holders of Solar Bonds, as members, shall not be entitled to any further share in the distribution of the assets of SolarShare.

Net assets of SolarShare, on dissolution after payment of all liabilities, are to be paid to another co-operative or charity, as decided by the Board.

Any surpluses will be placed in the TREC Renewable Energy Fund that is managed by TREC and will be used to finance more renewable energy projects, thereby increasing the deployment of low-carbon technologies in Ontario.

While there is an obligation to assign any surpluses to TREC’s Renewable Energy Fund, SolarShare has full discretion to keep sufficient funds to meets its obligations, which include interest payments on the bonds and repayment of the bonds on their maturity. The terms of the agreement can be found in Schedule K – Terms of Renewable Energy Fund Agreement.

18 DESCRIPTION OF ANY OTHER MATERIAL FACTS

A copy of this Offering Statement must be given to each member/investor before SolarShare may legally accept any payment. None of the securities issued by SolarShare pursuant to this Offering Statement will be in bearer form.

This Offering Statement will expire on April 30, 2024, after which date no further sale of securities shall occur, unless a new Offering Statement has been filed and receipted.

19 CERTIFICATE OF DISCLOSURE

THE FOREGOING CONSTITUTES FULL, TRUE, AND PLAIN DISCLOSURE OF ALL MATERIAL FACTS RELATING TO THE SECURITIES OFFERED BY THIS OFFERING STATEMENT AS REQUIRED BY SECTION 35 OF THE CO-OPERATIVE CORPORATIONS ACT.

Dated Toronto, Ontario this 25th day of April, 2023

SCHEDULE B – TERMS OF TRUST AGREEMENT

1. DEFINITIONS

In this Agreement:

1. **Bondholders** means the holders of Solar Bonds, who provide financing for the Co-operative's projects.
2. **Charges** mean the charges of the Leases and Equipment, given as collateral security for the Notes, Solar Bonds, and the obligations of the Co-operative under the TREC Agreements, as registered in the relevant registry systems, given by the Co-operative to the Trustee.
3. **Events of Default** are as set out in Schedule A.
4. **Leases and Equipment** means the leases of all solar photovoltaic sites owned by the Co-operative, and the equipment installed by the Co-operative on those sites.
5. **Note** means a Promissory Note issued to the Noteholders pursuant to this Agreement, as secured by the Charges.
6. **Noteholders** means the holders of Notes, who provide bridge financing for the Co-operative's projects.
7. **Prime Rate** means the commercial lending rate of interest expressed as an annual rate quoted or published by Bank of Montreal as the reference rate of interest from time to time (commonly known as prime) for the purpose of determining the rate of interest that it charges to its commercial customers for loans in Canadian Funds.
8. **Solar Bond** means a bond issued to the Bondholders.
9. **TREC** means Toronto Renewable Energy Co-operative Inc., which provides development, financial and other services to the Co-operative.
10. **TREC Agreement** means the Agreement in place from time to time between TREC and the Co-operative, entitling TREC to be paid certain surplus funds of the Co-operative in return for financial support from TREC.

2. RIGHTS AND DUTIES OF TRUSTEE

The Trustee accepts the trusts in this Agreement and agrees to perform the same upon the terms and conditions set forth in this Agreement as Trustee for the Bondholders, Noteholders and TREC.

The Trustee, in exercising his power and discharging his duties under this Agreement, shall act honestly and in good faith with a view to the best interests of the Bondholders, Noteholders and TREC, and exercise the care, diligence and skill of a reasonably prudent trustee.

The Trustee shall have the power to institute and to maintain such actions and proceedings as he may consider necessary or expedient to preserve, protect or enforce his interests and the interests of the Bondholders, Noteholders and TREC.

Trustee represents that at the time of the execution of this Agreement, no material conflict of interest exists in the his role as fiduciary to the Bondholders, Noteholders and TREC, save his role as a director and officer of TREC and the Co-operative, and lender to the Co-operative, and agrees that in the event of a new material conflict of interest arising, he will, within ninety days either eliminate such conflicts or resign from his position as trustee.

3. CERTIFICATION BY TRUSTEE

No Solar Bond or Note shall be issued, or if issued, shall be effective until it has been certified by or on behalf of the Trustee, and such certification by the Trustee upon any Solar Bond shall be conclusive evidence as against the Co-operative that the Solar Bond or Note has been duly issued under this Agreement, and is a valid obligation of the Co-operative.

The certificate of the Trustee on Solar Bonds and Notes issued in accordance with this Agreement shall not be construed as a representation or warranty by the Trustee as to the validity of this Agreement or of the Solar Bonds or Notes (except for certification as a Solar Bond or Note referred to in this Agreement) and the Trustee shall in no respect be liable or answerable for the use made of the Bonds or Notes or any of them or the proceeds thereof.

4. COVENANT TO PAY

The Co-operative agrees with the Trustee that so long as any Solar Bonds or Notes remain outstanding, the Co-operative shall pay or cause to be paid to every holder of every Solar Bond or Note issued under this Agreement, the principal and interest accrued from every Bond or Note, including, in case of default, interest on all amounts overdue at the specified rate, at the dates and places and in the manner mentioned in the Bonds or Notes.

5. RANKING

All Solar Bonds and Notes shall rank rateably without discrimination, preference or priority, whatever may be the actual date or terms of the issue of the Bond or Note.

6. VARIATION OF RIGHTS

Any of the rights conferred on the Bondholders, Noteholders and TREC may at any time be varied or abrogated (whether with the consent in writing or at a meeting) by the holders of seventy five percent in value of the issued and outstanding Solar Bonds and Notes, plus seventy-five percent of the total number of Bondholders, Noteholders and TREC, and any variation so made shall be binding on all the Bondholders, Noteholders and TREC, each of whom shall, on the request of the Co-operative, surrender his/her Solar Bond or Note to the Co-operative in order that a memorandum of such variation may be endorsed on it.

7. MEETINGS OF BONDHOLDERS, NOTEHOLDERS AND TREC

The procedures for meetings of Bondholders, Noteholders and TREC are set out in Schedule B to this Trust Agreement.

8. POWERS EXERCISABLE BY MEETING

In addition to the powers under paragraph 6, the Bondholders, Noteholders and TREC upon the consent in writing, or at a meeting, of the holders of seventy five percent in value of the issued and outstanding Solar Bonds or Notes, plus seventy-five percent of the total number of Bondholders, Noteholders and TREC, shall have the following powers:

1. power to direct or authorize the Trustee to exercise any power, right, remedy or authority given to it by this Agreement or the Solar Bonds or Notes in any manner specified or to refrain from exercising any such power, right, remedy or authority; and
2. power to waive, and direct the Trustee to waive, any default on the part of the Co-operative in complying with the provisions of this Trust Agreement or the Solar Bonds or Notes, including an Event of Default.

9. MINUTES

Minutes of all resolutions and proceedings at every such meeting of Bondholders, Noteholders and TREC shall be made and duly entered in books to be from time to time provided for that purpose by the Trustee at the expense of the Co-operative.

10. BINDING EFFECTS OF RESOLUTIONS

Every resolution shall be binding upon all of the Bondholders, Noteholders and TREC, whether present at or absent from such meeting, and each and every Bondholder and the Trustee (subject to the provisions for its indemnity, below) shall be bound to give effect accordingly to every such resolution.

11. CHARGES

As security for the due payment of all money payable pursuant to the Solar Bonds or Notes, and the TREC Agreement, the Co-operative shall deliver the Charges in favour of the Trustee on the Leases and Equipment, to rank subsequent to charges to financial institutions for the financing of the Co-operative's projects. The Trustee is authorized to execute such postponements of the Charges, and other related documents as are necessary to arrange for such prior financing.

12. PROCEEDINGS BY THE TRUSTEE

1. The Trustee shall give each Bondholder and Noteholder notice within 15 days of the Trustee becoming aware of the occurrence of an Event of Default.
2. Whenever any Event of Default has occurred, the Trustee, in the exercise of his discretion, or upon the decision of the Bondholders and Noteholders in a meeting called pursuant to Schedule E may proceed to enforce the rights of the Trustee under the Charges and the rights of the Bondholders and Noteholders by any remedy or proceeding authorized or permitted by law or equity and may file such proofs of claim and other papers or documents as may be necessary or advisable in order to have the claims of the Trustee and of the Bondholders and Noteholders lodged in any bankruptcy, winding up or other judicial proceedings relative to the Co-operative and/or the Leases and Equipment.
3. No such remedy or proceeding for the enforcement of the rights of the Trustee or of the Bondholders and Noteholders shall be exclusive of or dependent on any other such

remedy but any one or more of such remedies may from time to time be exercised independently or in combination.

4. Upon the exercising or taking by the Trustee of any such remedies or proceedings, the principal and interest outstanding on all Solar Bonds or Notes then outstanding shall forthwith become due and payable to the Trustee.
5. All rights of action hereunder may be enforced by the Trustee without the possession of any of the Solar Bonds or Notes or the production thereof on the trial or other proceedings relative thereto.
6. No delay or omission of the Trustee or of the Bondholders and Noteholders to exercise any remedy referred to in this paragraph shall impair any such remedy or shall be construed to be a waiver or acquiescence of any default.

13. APPOINTMENT OF A RECEIVER

At any time after an event of default has occurred, the Trustee may appoint by writing a receiver of the Leases and Equipment upon such terms regarding remuneration and otherwise as the Trustee shall think fit, and remove any receiver so appointed and appoint another in his/her place. The receiver so appointed shall be the agent of the Co-operative, and the Co-operative shall be responsible for such receiver's acts and defaults and for his/her remuneration, costs, charges and expenses to the exclusion of liability on the part of the Trustee or the Bondholders and Noteholders.

Any receiver shall have power to:

1. Take possession of, collect and get in all or any part of the Leases and Equipment and, for that purpose, to commence, continue, appeal or discontinue proceedings in the name of the Co-operative or otherwise and to make any arrangement or compromise as the receiver considers necessary;
2. Borrow or raise money on all or any part of the Leases and Equipment for such purposes as may be approved by the Trustee; and
3. Sell or concur in selling all or any part of the Leases and Equipment without notice and in such manner as may seem advisable to the receiver, and to affect such sale by conveying in the name and on behalf of the Co-operative or otherwise.

14. APPLICATIONS OF PROCEEDS

Money from time to time received by the Trustee or the receiver may be applied as follows:

1. First, to pay all expenses deemed necessary by the Trustee or the receiver affecting the Leases and Equipment;
2. Second, in keeping all charges and liens on the Leases and Equipment having priority over the Charges in good standing;
3. Third, in payment of the reasonable fees and disbursements of the receiver and the Trustee;

4. Fourth, in payment to the Bondholders and Noteholders of the principal and interest payable under the Solar Bonds or Notes;
5. Fifth, in payment to TREC of all monies outstanding under the TREC Agreements; and the balance, if any, shall be paid to the Co-operative.

15. INSURANCE

The Co-operative will keep the Leases and Equipment insured to the its full value with a reputable insurance company against loss or damage by fire and such other risks as are in accordance with sound commercial practice normally insured against and shall produce the last receipts for such insurance to the Trustee for inspection on demand.

16. TRUSTEE REMUNERATION AND EXPENSES

1. The Trustee's fees and all reasonable expenses, disbursements and advances incurred or made by the Trustee in the administration or execution of the trusts hereby created (including the reasonable compensation and the disbursements of counsel and other advisors), both before any event of default and after, until all duties of the Trustee under the trusts in this Agreement has been fully performed, shall be paid or reimbursed upon request by the Co-operative, except any such expense, disbursement or advance as may arise from his negligence or willful default.
2. Any amount due under this section and unpaid thirty days after request for such payment shall bear interest at the Prime Rate plus 1% per annum from the expiration of such thirty-day period. After default, all amounts so payable and the interest thereon shall be payable out of any funds coming into the possession of the Trustee in priority to any payment of the principal or interest on the Solar Bonds or Notes to the Co-operative.

17. CHANGE OF TRUSTEE

The Trustee may resign by notice in writing delivered to all Bondholders and Noteholders to take effect no earlier than the date of a meeting of Bondholders and Noteholders called to appoint a replacement. Prior to resigning, the Trustee shall call such a meeting. A meeting of Bondholders and Noteholders shall have the power to remove a Trustee, and to appoint one or more replacement trustees.

18. NOTICES

1. Every notice to be given to Bondholders and Noteholders shall be deemed to have been given if such notice is sent by prepaid mail to such Bondholders and Noteholders at their addresses as set out in the records of the Trustee from time to time.
2. Any notice to the Trustee under the provisions of this Agreement shall be valid and effective if delivered to the Trustee by prepaid regular mail, addressed to the Trustee at:

150 John Street, Seventh Floor
Toronto, Ontario M5V 3E3

Any notice to the Co-operative shall be deemed valid and effective if delivered to an officer of the Co-operative or if sent by prepaid mail to the Co-operative at:

TREC SolarShare Co-operative (No. 1) Inc.
c/o TREC, 401 Richmond Street, Suite 240, Toronto ON M5V 3A8
Attention: Executive Director

3. Any notices so given by mail pursuant to this paragraph shall be deemed to have been given on the day of mailing.

Schedule A to Trust Agreement

Events of Default

The following are Events of Default:

1. If the Co-operative makes default in payment of the principal or interest on any Solar Bond or Note, or obligation under the TREC Agreements when the same becomes due, and such default continues for 10 days;
2. If the Co-operative defaults in the observance of any of the covenants in a Solar Bond or Note, or obligation under the TREC Agreements;
3. If an order shall be made or a resolution passed for the winding up or liquidation of the Co-operative;
4. If the Co-operative shall make a general assignment for the benefit of its creditors or a proposal under the Bankruptcy and Insolvency Act (Canada), or shall be declared, or if a custodian or receiver and manager shall be appointed of the Co-operative or of any of the Leases and Equipment of the Co-operative;
5. If a creditor or encumbrancer of the Co-operative shall take possession of any of the Leases and Equipment of the Co-operative;
6. If a default shall occur under any obligation of the Co-operative to repay borrowed money and such default shall continue for a period sufficient to permit the acceleration of the maturity of such obligation; and
7. If the Co-operative shall neglect to carry out or observe any covenant or condition in this Agreement, and, after notice in writing has been given by the Trustee to the Co-operative specifying such default and requiring rectification thereof, the Co-operative shall fail to make good such default within a period of 10 days.

Schedule B to Trust Agreement

Procedures for Meetings of Bondholders

1. Right to Convene Meeting – The Trustee shall, on the request of the Co-operative, a Bondholder, or a Noteholder, convene a meeting of the Bondholders and Noteholders on ten days' notice in the manner provided for in paragraph 18 of the Trust Agreement. In the event the Trustee fails, within five days after receipt of a request, to give notice convening such meeting, the Co-operative or such Bondholder or Noteholder, as the case may be, may convene such meeting. Every such meeting shall be held at such place as may be determined by the party calling the meeting.
2. Chair – A person, who need not be a Bondholder, or a Noteholder, nominated by the party calling the meeting, shall chair the meeting and if no person is so nominated, those present shall choose person present at the meeting to be the chair.
3. Power to Adjourn – The chair of any meeting may, with the consent of the holders of a majority in principal amount of the Solar Bonds or Notes represented there, adjourn any such meeting and no notice of such adjournment need be given except such notice, if any, as the meeting may prescribe.
4. Show of Hands – Every question submitted to a meeting shall be decided in the first place by the votes given on a show of hands, unless a poll is requested by any Bondholder, or Noteholder. At any such meeting, unless a poll is requested, a declaration by the chair that a resolution has been carried or carried unanimously or by a particular majority or lost or not carried by a particular majority shall be conclusive evidence of the fact.
5. Poll – When a poll is requested on any question submitted to a meeting, either before or after a vote by show of hands, it shall be taken in such manner as the chair shall direct.
6. Proxies – The Trustee may make rules for voting by proxy and the form of the instrument appointing a proxy.
7. The Co-operative and Trustee may be Represented – The Co-operative, by its officer or director, the Trustee, and the legal advisors of the Co-operative and the Trustee, may attend any such meeting, but shall have no vote.

SCHEDULE C – FORM OF 3-YEAR, 4-YEAR AND 5-YEAR SOLAR BONDS (SIMPLE INTEREST)

[front]

TREC SolarShare Co-operative (No. 1) Inc.
(Incorporated under the Ontario Co-operative Corporations Act)

Member Name: <<Member Name>> **Bond No.** <<Certificate Number>>

Principal Sum: \$<<Total Bond>> Date: <<Effective Date>> Maturity Date: <<Maturity Date_Bond>>

Interest Rate: <<Rate_Bond>> on <<Term Words_Bond>>year term Solar Bonds

For value received, **TREC SolarShare Co-operative (No. 1) Inc.** acknowledges itself indebted and promises to pay, in Canadian money, to the Member, on the Maturity Date, the Principal Sum above and to pay interest on that amount, upon and subject to the terms and conditions set out on the reverse side.

TREC SolarShare Co-operative (No. 1) Inc.

This Bond is one of the Bonds referred to in the Trust Agreement.

Per: _____

Brian Iler, Trustee

[back]

1. Interest

Interest shall accrue on the balance from time to time outstanding of the Principal Sum at the specified rate per year, calculated semi-annually in arrears. Interest will be paid on or before the 15th day of June and the 15th day of December each year.

2. How and to Whom Payments to be Made

The person in whose name this Bond is registered in the records of TREC SolarShare Co-operative (No. 1) Inc. (SolarShare) will be regarded as the owner of the Bond and any payments made pursuant to this Bond will be made only to or upon the order in writing of such person.

Payments on account of the Principal Sum or interest, at maturity or a redemption date or an interest payment date, will be paid, if instructed by the Member, directly deposited to the account of the Member, or, otherwise, by cheque drawn on SolarShare and sent by pre-paid mail to the Member at the address of the Member contained in the records of SolarShare.

If the date for payment of any amount of the Principal Sum or interest is not a business day, then payment will be made on the next business day and the Member will not be entitled to any further interest or other payment in respect of the delay.

3. Prepayment

The Principal Sum may be prepaid by SolarShare at its option, in whole or in part, at any time, without penalty, but including interest accrued to the date of prepayment.

4. Security

This Bond and all other similar bonds issued by SolarShare are secured by a mortgage in favour of the Trustee for the benefit of all members of SolarShare who are holders of similar bonds to this Solar Bond, on the leasehold properties, other real properties, and equipment held by SolarShare, on the terms set out in Trust Agreements dated October 29th, 2012. A copy of these agreements are available to the Member upon request.

5. Defaults

Subject to paragraph 6, the Principal Sum shall become immediately due and payable at the option of the Member without presentment, demand, notice of dishonour, protest or notice of protest in respect of this Solar Bond, upon the occurrence of any one or more of the following events:

1. A failure of SolarShare to make any payment required to the Member when due; or
2. SolarShare shall become insolvent or bankrupt or ceases paying its debts as they mature or shall make an assignment for the benefit of creditors; or
3. A trustee, receiver or liquidator shall be appointed for SolarShare for a substantial part of the property of SolarShare under the laws of any jurisdiction and the appointee of such proceedings shall not have been discharged within sixty days of the appointment or institution of proceedings.

6. When Principal Repayment May Be Delayed

To address concerns that Debt Financing lenders may raise in light of possible future market interest rate fluctuations, principal repayment may not occur until replacement capital is obtained.

7. Transfer

No transfer or assignment of this Solar Bond shall be valid without the prior written approval of SolarShare.

8. Successors

The provisions of this Solar Bond shall ensure to the benefit of and be binding on the Member and SolarShare, and, as applicable, their respective any successors, heirs, administrators and/or legal or personal representatives.

9. Discharge and Satisfaction

Upon payment by SolarShare to the Member of all monies due and payable hereunder, this Bond shall cease and become null and void and the Member shall upon request and the expense of SolarShare execute and deliver to SolarShare a full release and discharge.

10. Notice

Any notice required or permitted to be given to any party to this Solar Bond shall be given in writing and shall be delivered personally or mailed by prepaid regular mail. Any such notice shall be conclusively deemed to have been given and received on the day on which it is delivered, if personally delivered, or if mailed, on the second business day immediately next following the date of mailing, and addressed, in the case of SolarShare to 192 Spadina Avenue, Suite 429, Toronto Ontario M5T 2C2, Attention: General Manager, and in the case of the Member to the Member's latest address as shown in the records of SolarShare.

The foregoing information can be changed by giving a notice in accordance with the requirements set out in this Section.

SCHEDULE D – SOLARSHARE BY-LAWS

ORGANIZATIONAL BY-LAW

of

TREC SolarShare Co-operative (No. 1) Inc.

incorporated under the *Co-operative Corporations Act*

[Includes amendments confirmed on March 16, 2021]

The following is enacted as a by-law of TREC SolarShare Co-operative (No. 1) Inc. (the **Co-operative**):

1. REQUIREMENTS OF CO-OPERATIVE CORPORATIONS ACT

1.1 *Co-operative Corporations Act* – The affairs of the Co-operative will be governed and conducted in accordance with the *Co-operative Corporations Act* of Ontario (the **Act**). Certain provisions of that Act relate to various matters not dealt with in the by-laws of the Co-operative and should be consulted where appropriate. If any conflict arises between the mandatory provision of the Act and the by-laws of the Co-operative, such provisions of the Act shall govern.

1.2 Records – Pursuant to the Act, copies of the following documents shall be kept at the head office of the Co-operative:

- a. A copy of the Articles of Incorporation;
- b. All by-laws;
- c. A register of members and security holders in which is set out the information required by the Act (Section 114, paragraph 3 of the Act);
- d. A register of directors in which is set out the names and the resident addresses while directors, including the street and number, if any, of all persons who are or who have been directors the Co-operative with the several dates on which they have become or ceased to be directors;
- e. All accounting books and documents (Section 114, paragraph 5 of the Act);
- f. The minutes of all meetings of members, directors and any executive or other committee; and
- g. A register of transfers of securities

These records shall be available for examination by any director and, with the exception of accounting records and minutes of proceedings at meetings of directors and any committee, by members and creditors of their agents or personal representatives during normal business hours for purposes consistent with the good faith exercise of membership rights and responsibilities in the Co-operative.

- 1.3 Business with Members – Pursuant to the Act, the Co-operative is authorized to conduct 50% or more, up to 100%, of its business with non-members.

2. **MEMBERSHIP**

- 2.1 Qualifications of Membership - The board of directors may admit as a new member of the Co-operative, a person who is a resident of Ontario, and has paid the membership fee established by resolution of the board of directors from time to time.
- 2.2 Benefits of Membership – Members shall enjoy the following rights of membership:
- a. The right to vote at annual and special meetings of members;
 - b. All rights of members otherwise set out in the Act, the articles and by-laws of the Co-operative
- 2.3 Transfer of Membership – Membership is transferable upon Board approval and is subject to a \$50 transfer fee.
- 2.4 Withdrawal – A member of the Co-operative may withdraw from membership by giving to the Secretary 6 months’ notice of her/his intention to withdraw, and upon approval of the board.
- 2.5 Expulsion – A member of the Co-operative may be expelled from the membership by the directors in accordance with Section 66 of the Act.
- 2.6 Automatic Termination – If a member ceases to be qualified for membership pursuant to paragraph 2.1 that person automatically ceases to be a member.
- 2.7 Agreement to Comply with By-Laws – Upon becoming a member of the Co-operative, a person is deemed to have entered into an agreement with the Co-operative to comply with and be bound by the by-laws of the Co-operative, as amended from time to time.
- 2.8 Confidentiality – Upon being admitted to membership in the Co-operative, members are deemed to have entered into a confidentiality agreement with the Co-operative and shall not disclose to third parties any information pertaining to the Co-operative which, directly or indirectly,
- o Could be prejudicial to the interests of the Co-operative,
 - o Could place the Co-operative at a competitive disadvantage with respect to existing or potential competitors, or
 - o Could cause material damage to the reputation or image of the Co-operative or the Co-operative’s products

2.9 Except for information which is generally known, other than as a result of a disclosure in breach of this paragraph, is rightfully in the possession of a member prior to the date when the information was disclosed to the member by the Co-operative or becomes available to the member on a non-confidential basis from a source which is not prohibited from disclosing such information by a legal, contractual or fiduciary obligation.

3. MEETINGS OF MEMBERS

3.1 Annual Meetings – the annual meeting of the members shall be held within 6 months of the financial year-end, December 31st, and within 15 months of any previous annual meetings. The board of directors shall fix the date, time and location of the annual meeting. The annual meeting shall be held for the purpose of electing the directors, receiving the financial statements and any auditor's report thereon, and the transaction of any other business that may properly be brought before an annual meeting of the members.

3.2 Special and Requisitioned Meetings - Meetings of members other than the annual meeting may be called by order of the President, Vice-President or by resolution of the board of directors, or by requisition signed by at least 5% of the members called in accordance with the Act (the latter being a "**requisitioned meeting**").

3.3 Business Transacted – At meetings of the members, only the business stated in the notice calling such a meeting may be transacted.

3.4 Record Date – the board of directors may fix in advance a record date preceding the date of any meeting of members for the determination of the members and bondholders shall receive notice of the meeting. The date shall not be more than three business days prior to the date on which the notice of the meeting is given, and not more than 50 days before the date of the meeting.

3.5 Notice and Method(s) of Annual, Special and Requisitioned Meetings - In respect of each annual or special meeting of members or requisitioned meeting (in this Article 3 referred to collectively as a "**meeting**"), either the board of directors shall (i) determine the following matters in advance by ordinary resolution, or (ii) may delegate to the President the authority from time to time (with or without conditions as to thereof) to determine, and to change such determination from time to time as the President may in his or her discretion determine, any one or more of the following matters: (a) whether the meeting is to be held solely in person ("**Meeting in Person**"), or solely by telephonic or electronic means (herein a "**Digital Meeting**"), or whether it is to be held both in person and by telephonic or electronic means ("**Combined Meeting**"), provided that the portion of a Combined Meeting being held as a Digital Meeting shall, if the context allows, be referred to in this by-law as a **Digital Meeting**; (b) at what place within the province of Ontario, if any, a Meeting in Person is to be held; (c) which specific telephonic or electronic means or system(s) shall be used for the purposes of participation

and voting in connection with a Digital Meeting; (d) the date and time of the meeting; (e) the business to be conducted at the meeting; (f) whether to appoint a chair of the meeting and whom to appoint; (g) whether to permit mailed-in ballots for any meeting, and the process for doing so; and (h) policies regarding the holding of meetings and the taking of action thereat. A written notice of each meeting shall be given by the Secretary at least 10 days but no more than 50 days before the scheduled meeting date to each member and to the auditor (if any) of the Co-operative stating the time, place, purpose and method or methods by which the meeting will be held. For all purposes of this by-law, the term "telephonic or electronic means" shall be as defined by the Act.

- 3.6 Where Notice Not Required – No notice of any annual or other meetings of the members shall be necessary:
- a. Where all members entitled to vote at such a meeting and all bond holders, are present in person, and in the case of an annual meeting, consent to the transaction of the business, or in the case of any other meeting, consent to the transaction of the business for which such meeting is being held; or
 - b. Where all members entitled to vote at such meeting who are not present in writing and all bond holders, waive notice of the meeting, on in the case of a meeting other than the annual meeting, notice of the meeting and the purpose for which it is being held.
- 3.7 One Member – One Vote – Each member at a meeting is entitled to one and only one vote on any matter requiring a vote of the members.
- 3.8 Voting - Except as required by these by-laws or the Act, questions arising at any meeting of members shall be decided by a majority of votes. At any meeting of members, each member having the right to vote shall be entitled to one vote on each question.
- 3.9 Quorum – A quorum for any meeting of the members shall be 25 members, or 10% of the members, whichever is lesser. No business shall be transacted at any meeting unless the requisite quorum is present.
- 3.10 Proxies, etc. - No individual member may vote by proxy. A corporate member may appoint one of its directors or officers to attend any meeting and exercise on its behalf its vote. The individual holding the proxy of a corporate member shall be permitted to attend a Meeting in Person in person, or a Digital Meeting by the means provided, and may vote only in the same manner as other members present at such meeting are permitted to vote in respect of each question. References in Article 3 of this by-law to "**members**" shall, as regards attendance and methods of voting at meetings, include any and all such proxy-holders.

- a. Digital Meetings - A meeting may be held in whole or in part as a Digital Meeting so long as the telephonic or electronic means used to conduct it permit all members, and individuals who are representatives of the auditor, if any, participating in the meeting to communicate with each other simultaneously and instantaneously. A person or member participating in a Digital Meeting by such means is deemed to be present at the meeting. A member participating in a Digital Meeting by such means forms part of the quorum thereof, and a member who, through those means, votes at or establishes a communications link to the meeting is deemed to be present at the meeting. Provisions of the Act relating to voting by a personal representative of a member, and to joint holders of a membership, shall apply as nearly as possible to Digital Meetings as in the case of a Meeting in Person.
- b. Voting by Show of Hands – Except as otherwise permitted by the Act or the bylaws of the Co-operative, and, unless prior to any vote on a question a member requests a ballot, the vote shall be held by the chair of the meeting asking which members vote in favour of, followed by the Chair asking which members vote against, such question or resolution, with the vote in each case to be taken in the following manner: (a) by show of hands of the members present in person at a Meeting in Person; or (b) in a manner similar to a show of hands by a function of the telephonic or electronic means (which shall be provided by the Co-operative) exercised by the members present at a Digital Meeting; or (c) by combining the votes given by methods (a) and (b) in respect of a Combined Meeting. No member may attend a meeting both in person and by telephonic or electronic means at the same time. If a member does not vote in the manner required above, the member will be considered to have abstained from voting.
- c. Voting by Ballot - If a vote by ballot is required or demanded, then the vote by ballot shall (subject to this section) be held in such manner as the chair of the meeting shall direct. The demand for a ballot may be withdrawn at any time prior to the holding of the vote by ballot, in which case the vote shall be by show of hands or in a manner similar to a show of hands by a function of the telephonic or electronic means exercised by the members present at a Digital Meeting, unless a ballot is again demanded in advance thereof. If the written notice of the meeting so requires or permits, then vote by ballot shall be provided to those persons present by telephonic or electronic means, via such means, so long as such means: (i) enable the votes to be gathered in a manner that permits subsequent verification; and (ii) permit the tallied vote to be presented to the Co-operative without it being possible for the Co-operative to identify how each member voted. In the case of an election of directors during a

meeting conducted in whole or in part as a Digital Meeting, no such election shall be carried out unless those present by telephonic or electronic means are capable of voting by ballot. Excluding the election of directors, if a vote by ballot is demanded at a Digital Meeting in circumstances where the written notice of meeting does not provide that vote by ballot may be taken by telephonic or electronic means, and if the Secretary determines, and advises the members present at the meeting, that no reasonable equivalent of a vote by ballot is available through such means then, in addition to any vote by ballot being carried out for members present in person (in the case of a Combined Meeting), the vote by ballot of those members present by telephonic or electronic means shall be carried out by the function described in section 3.10(B)(b).

- d. Voting by Mail - A member entitled to vote may, if written notice of the applicable meeting of members so permits, vote by mailed-in ballot, if the Co-operative has a system that:
 - i. enables the votes to be gathered in a manner that permits their subsequent verification; and
 - ii. permits the tallied votes to be presented to the Co-operative without it being possible for the Co-operative to identify how each member voted.”

3.11 Chair - The chair at any meeting, including a Combined Meeting, shall be such person as has been appointed by resolution of the board of directors to act as such, and in the absence of such an appointment shall be the President, and in the absence of both such persons at the meeting shall be a Vice President. The chair of the meeting does not have a second or casting vote in the case of an equality of votes, but shall be entitled, if a member, to vote as a member. If no person with the authority to so act is present to chair a meeting within 20 minutes after the time appointed for the meeting to start, then, provided that there is a quorum of members present, the members present may choose a member from among their number to act as the chair of the meeting. A person entitled to act as chair of a meeting may attend and so act by telephonic or electronic means (as defined in the Act) provided that such person is physically present in Ontario.

3.12 Adjournment – If a meeting of members is adjourned for less than 30 days, it shall not be necessary to give notice of the adjourned meeting other than by an announcement at the meeting that is adjourned. If a meeting of members is adjourned by one or more adjournments for a total of 30 days or more, notice of the adjourned meetings shall be given as for the original meeting. The chair of a meeting shall consider a Digital Meeting or Combined Meeting to be adjourned if the effective loss of the telephonic or electronic means results in either the loss of quorum or the loss of the ability to conduct business and vote in the manner

permitted or required in this Article 3 during a period of 15 minutes or more. A solely Digital Meeting may and shall be resumed (a "**Resumed Meeting**"), if, following a loss of telephonic or electronic means for a period of less than 15 minutes, an attempt to reconnect with all those previously present by telephonic or electronic means results in there being a person qualified to act as chair who is present and acting as chair and a quorum of members being present by such means. A Combined Meeting may and shall be continued (a "**Continued Meeting**") following a loss of telephonic or electronic means for a period of less than 15 minutes, if an attempt to reconnect with all those previously present by telephonic or electronic means results in there being a person qualified to act as chair who is present in person or by telephonic or electronic means and acting as chair, and a quorum of members are present in person or by telephonic or electronic means, or both. In the case of each of a Resumed Meeting and a Continued Meeting, no election of directors may be held and no vote may be held regarding any business not set out in the notice of meeting. Any business may be brought before or dealt with at any adjourned meeting which might have been brought before or dealt with at the original meeting in accordance with the notice calling the same.

4. **BOARD OF DIRECTORS**

- 4.1 Powers – The board of directors shall manage or supervise the management of the affairs and business of the Co-operative.
- 4.2 Qualifications – Each director shall be at least 18 years of age, and a member of the Co-operative (or, if the member is a corporation, he or she is a director, officer, bondholders or member of that corporate member), and shall not be an undercharged bankrupt or a mentally incompetent person. All directors shall be residents of Ontario.
- 4.3 Election and Size – The board of directors shall consist of a minimum of five and a maximum of nine directors (the exact number to be determined from time to time by the directors) who shall be elected for a term of three years, arranged so that one-third of the directors are elected each year. Directors shall be eligible for re-election upon completion of their term,
- 4.4 Tenure – Except as otherwise provide by law, by the articles, or by these by-laws, directors shall hold office until their successors are elected.
- 4.5 Nominations – At a meeting where directors are to be elected, the meeting, before nominations are called for, shall choose its chair for the purpose of conducting the elections. Nominations shall be on an individual basis and the chair shall not accept a blanket motion to elect directors until after nominations have been closed.
- 4.6 Election – Every member entitled to vote at an election of directors, if she/he votes, shall cast a number of votes equal to the number of directors to be elected,

and the member shall distribute the votes among the candidates in such a manner as she/he sees fit, but no candidate shall receive more than one vote from each member.

- 4.7 Vacation of Office – The office of a director shall be vacated:
- a. if she/he ceases to have the necessary qualifications for office;
 - b. if she/he is absent without leave of the directors for three consecutive regular meetings of the directors;
 - c. if by notice in writing to the Co-operative she/he resigns her/his office, or
 - d. if by resolution passed by a majority of the votes cast at a meeting of the members called for that purpose, she/he is removed from office;
 - e. if he/she dies.
- 4.8 Vacancy – Whenever any vacancy occurs on the board of directors, provided a quorum of directors remains in office, the directors may appoint a director to fill such vacancy, to serve for a term ending on the date of the next annual general meeting.
- 4.9 Meetings of Directors – Regular meetings of the directors shall be held as often as the business of the Co-operative may require but in any event not less than quarterly.
- 4.10 The co-operative will indemnify all directors and officers, and their heirs and legal personal representatives, to the maximum extent permitted by section 110 of the Act.

5. OFFICERS

- 5.1 Election and Appointment – The directors shall annually or as often as may be required, elect a President, and elect or appoint a Vice-President, a Secretary, and a Treasurer. None of the said officers, except the President, need be a member of the board of directors. Any two of these offices may be held by the same person, except those of the President and Vice President. The directors may from time to time elect or appoint such other officers and agents as they shall deem necessary who shall have such authority and shall perform such duties as the directors from time to time shall prescribe.
- 5.2 Remuneration and Removal – The remuneration of all officers elected or appointed by the directors shall be determined from time to time by resolution of the directors. The fact that any officer or employee is a director or member of the Co-operative shall not disqualify her/him from receiving remuneration as may be determined. All officers, in the absence of agreement to the contrary, shall be subject to removal by resolution of the directors at any time, with or without cause.

- 5.3 Delegation – In the case of the absence or inability to act of the President, Vice-President or any other officer of the Co-operative or for any other reason that the directors may deem sufficient, the directors may delegate all or any of the powers of such officer to any other officer or to any director for the time being, provided that a majority of directors concur therein.
- 5.4 Duties of President – The President shall, if present, preside at all meetings of members and directors. She/he shall sign all instruments which require her/his signature and shall perform all duties incident to her/his office and shall have such other powers and duties as may from time to time be assigned to her/him, by the directors.
- 5.5 Duties of Vice-President – In the absence or disability or refusal to act of the President, the Vice-President shall be vested with all the powers and she/he shall perform all the duties of the President.
- 5.6 Duties of Secretary – The Secretary shall issue or cause to be issued notices for all meetings of the members and directors when directed to do so, and shall keep or cause to be kept all records required by paragraph 1.2 of these by-laws. She/he signs with the president or other signing officer or officers of the Co-operative such instruments as require her/his signature and shall perform such other duties as the terms of her/his engagement call for or the directors may from time to time require of her/him.
- 5.7 Duties of Treasurer – The Treasurer shall have the care and custody of all the funds and securities of the Co-operative and shall deposit the same in the name of the Co-operative in the financial institutions designated pursuant to paragraph 8.2. She/he shall keep or cause to be kept proper accounting records in accordance with the Act. She/he shall at all reasonable times exhibit, or cause to be exhibited, books and accounts to any director upon application at the office of the Co-operative during business hours. She/he shall sign such instruments as require her/his signature and shall perform all other duties incident to her/his office or that are properly required of her/him by the directors. She/he shall be required to give such bond as directors may require. No director shall be liable for failure to require any bond or for the insufficiency of any bond or for any loss by reason of the failure of the Co-operative to receive any indemnity thereby provided. The Treasurer may delegate any or all of his/her duties to other officers, or to staff of the Co-operative.
- 5.8 General Manager – The directors may from time to time appoint a general manager who shall not be one of the directors of the Co-operative and may delegate to her/him full authority to manage and direct the affairs of the Co-operative (except such matters and duties as by law must be transacted or performed by the directors or by the members in general meeting), and to employ, discharge, and fix wages or salaries of employees of the Co-operative.

The general manager shall at all reasonable times give to the directors or any of them all information they require regarding the affairs of the Co-operative.

- 5.9 Vacancy – An officer’s position shall become vacant by reason of death, resignation, disqualification or removal, the directors by resolution may elect or appoint an officer to fill such vacancy.

6. ASSET LOCK

- 6.1 Any profits or accretions to the value of the property of the Co-operative shall be used to further its activities.
- 6.2 The Co-operative cannot be converted into or continued as any other kind of corporation and no attempt to do so is effective.
- 6.3 The Co-operative shall not distribute or pay any of its property to its members during its existence or on its dissolution.
- 6.4 Despite the above, the Co-operative may pay a member reasonable amounts for goods or services provided by the member.
- 6.5 No person shall accept compensation for the withdrawal of its membership in the Co-operative.
- 6.6 The Co-operative may not amalgamate except with another asset-locked corporation.
- 6.7 In the event of dissolution, the assets of the Co-operative after payment of all the debts and liabilities of the Co-operative shall not be distributed among members but shall be distributed to a non-profit co-operative with similar restrictions on the application of its funds to those set out in this Article 6.
- 6.8 Any amendment to the Articles or by-laws of the Co-operative that would have the effect of amending this Article 6 shall be authorized by a special resolution passed by 95% of the voting members in attendance at a duly called meeting of members, and a majority of the members of each membership class.

7. BOND AND LOAN CERTIFICATES

- 7.1 Bondholder’s Entitlement – Every bondholder or lender is entitled to a bond certificate in respect to the bonds held or loans made by him/her.
- 7.2 Signatures – Each bond shall bear a minimum of one (1) signature, being that of an officer of the Co-operative. Any signature on behalf of the Co-operative or, where applicable, by any trustee for bondholders or lenders, may be printed, engraved, lithographed or otherwise mechanically or electronically reproduced on the certificate.
- 7.3 Loss of Certificate – In the case of loss, defacement or destruction of a certificate held by a member, the Act of such loss, defacement or destruction shall be reported by such member to the Co-operative with her/his statement verified by

oath or statutory declaration as to the loss, defacement or destruction and the circumstances attending the same and with her/his request for the issuance of a new certificate to replace the one so lost, defaced or destroyed. Upon giving to the Co-operative a bond of a surety company or other security approved by the directors indemnifying the Co-operative against all loss, damage or expense to which the Co-operative may be put by reason of the issuing of a new certificate held by a bondholder or lender, a new certificate may be issued to take the place of the one lost, defaced or destroyed if such issuance is ordered by the President for the time being or by the directors.

- 7.4 Transfer of Certificates – Bond and loan certificates shall not be transferable without the consent of the directors, except as permitted by the articles of the Co-operative.
- 7.5 Interest on member loans – Interest on member loans required as a condition of membership shall be 2% above the prime rate of Luminous Financial or its successor, compounded annually.

8. FINANCIAL

- 8.1 Cheques – All cheques, drafts or other orders for the payment of money and all notes and acceptances and bills of exchange shall be signed by such officer or officers or person or persons whether or not officers of the Co-operative and in such manner as the directors may from time to time designate.
- 8.2 Banking Arrangements – The banking business of the Co-operative shall be transacted in such banks, trust companies, credit unions or caisse populaires as may from time to time be designated by resolution of the board of directors. Such banking business or any part thereof shall be transacted under such agreements, instructions, and delegations of power as the directors may from time to time prescribe or authorize by resolution.
- 8.3 Custody of Securities – All bonds and securities owned by the Co-operative shall be placed for safe keeping (in the name of the Co-operative) with a credit union, chartered bank or trust company, or the Province of Ontario Savings Office, or with such other corporation as may be determined from time to time by the directors.
- 8.4 Dishonesty – For the Co-operative’s protection, either
 - a. the Co-operative shall maintain fidelity insurance in such amounts as reasonably protects it against dishonesty of its employees, or
 - b. every officer or employee of the Co-operative who has charge of or handles money or securities belonging to the Co-operative shall be bonded with a surety company selected by directors for such amounts as may from time to time be prescribed by the directors, but in no case for an amount less than \$1,000.

- 8.5 The directors may prescribe that any other employee or employees of the Co-operative (whether handling money or securities of the Co-operative or not) shall be bonded in such an amount as the directors determine.
- 8.6 Financial Year – The financial year of the Co-operative shall terminate on the last day of December in each year.
- 8.7 Dissolution – In the event of dissolution of the Co-operative, after payment of all its debts and liabilities the remaining property of the Co-operative shall distributed as stated in the Articles as amended.

9. AUDITORS

- 9.1 Appointment and Remuneration – The members at each annual meeting shall appoint an auditor, when it is required by the Act, who is familiar with co-operative accounting and practice. The auditor when appointed shall hold office until the next annual meeting, and if an appointment is not made, the auditor in office shall continue until a successor is appointed. The remuneration of the auditor shall be fixed by the directors.
- 9.2 Access to Books and Information – The auditor shall at all reasonable times have access to the books, accounts and vouchers of the Co-operative and may require from the directors and officers such information and explanations as may be necessary for the performance of her/his duties.
- 9.3 Report – The auditor, if required by the Act or the Treasurer, shall make a report to the members on the financial statements to be laid before the Co-operative at each annual meeting during her/his term of office and shall state in her/his report whether in her/his opinion the financial statement referred to therein presents fairly the financial position of the Co-operative and the results of its operation for the period under review.

10. EXECUTION OF DOCUMENTS

- 10.1 Execution of Documents – Aside from cheques (see paragraph 8.1) documents requiring the signature of the Co-operative may be signed by any 2 of the directors, officers and/or staff members who have been given signing authority by the directors. All documents so signed shall be binding upon the Co-operative without any further authorization or formality. The directors shall have power from time to time by resolution to appoint any officer or officers, person or persons to sign documents generally or to sign specific contracts, documents and instruments in writing on behalf of the Co-operative.

11. NOTICES

- 11.1 Signatures – The signatures on any notice to be given by the Co-operative may be written, stamped, typewritten, printed or affixed electronically.

- 11.2 Method of Giving – Any notice to be given (which term includes sent, delivered, or served) pursuant to the Act, the regulations under the Act, the articles, the by-laws, or otherwise to a member, bondholder, director, officer, auditor, secretary or general manager or member of a committee of the board of the Co-operative shall be sufficiently given if delivered personally to the person to whom it is to be given, mailed to him at his latest address in the records of the Co-operative by prepaid mail, or sent to that person at his/her latest recorded fax or electronic address in the records of the Co-operative by fax or e-mail.
- 11.3 Deemed Receipt – A notice delivered personally shall be deemed to have been given when it is delivered to the recorded address as stated above. A mailed notice shall be deemed to have been given on the fifth day after it is deposited in a post office or public letter box, unless there is a reasonable apprehension of a labour dispute which would interrupt mail delivery. A notice sent by means of facsimile transmission or e-mail shall, if sent during normal business without indication of failure, be deemed to have been given at the time of transmission or, if outside of such business hours, on the next following business day.
- 11.4 More Than One Name – All notices with respect to any membership bonds or loans registered in more than one name shall be given to whichever of the persons is named first in the books of the Co-operatives and notice so given shall be sufficient notice to all holders of such bond or loan.
- 11.5 Undelivered Notices – If any notice given to a member pursuant to paragraph 11.2 above is returned on three consecutive occasions because he cannot be found, the Co-operative is not required to send any further notices to such member until the member informs the Co-operative in writing of his/her new address.
- 11.6 Omissions and Errors – The accidental omission to give any notice to any member, director, officer, auditor or member of a committee of the board, or the non-receipt of any notice by any such person, or any error in any notice not affecting the substance thereof shall not invalidate any action taken at any meeting held pursuant to such notice.
- 11.7 Transfer of Loans – Every person who by operation of law, transfer or by other means whatsoever shall become entitled to any bond or loan shall be bound by every notice in respect of such bond or loan which previous to her/his name and address being entered on the books of the Co-operative was duly given to the person from whom she/he derives her/his title to such bond or loan.
- 11.8 Certificate of Secretary – A certificate of the Secretary or other duly authorized officer of the Co-operative in office at the time of the mailing of the certificate, as to facts in relation to the giving of notice to any member, director or officer shall be conclusive and binding on every member, director or officer of the Co-operative as the case may be.

- 11.9 Waiver of Notice – Where a notice is required to be given by the Act, the regulations under the Act, the articles, the by-laws, or otherwise, the giving of the notice may be waived or the time for the notice may be waived or abridged with the consent in writing of such person, whether before or after the time prescribed.

12. GENERAL

- 12.1 Head Office – The head office of Co-operative shall be located in the City of Toronto in the Province of Ontario, and at such place there as the directors may from time to time determine.
- 12.2 By-Law Amendments – Except as set out in paragraph 6.8 any by-law of the Co-operative may be enacted or changed by a decision by the Board, confirmed by a two-thirds majority of the votes cast at a general meeting of the members, properly called to make such changes. All by-law changes proposed will be included in the notice of the meeting at which the change will be decided upon.
- 12.3 Interpretation – In all by-laws of the Co-operative, the singular shall include the plural and the plural the singular; the masculine shall include the feminine; the word "person" shall include firms and corporations. Whenever reference is made in this by-law to any statute or section thereof, such reference shall be deemed to extend and apply to any amendment to said statute or section, as the case may be.

BY-LAW NUMBER 2

a by-law authorizing borrowing and pledging

by

TREC SOLARSHARE CO-OPERATIVE (NO. 1) INC.

(the Co-operative)

BE IT ENACTED as a by-law of Co-operative, as follows:

1. The directors of the Co-operative may from time to time, without authorization of the members:
 - a. borrow money upon the credit of the Co-operative by obtaining loans or advances or by way of overdraft or otherwise;
 - b. issue, sell or pledge securities of the Co-operative including bonds, debentures, debenture stock, for such sums on such terms and at such prices as they may deem expedient;
 - c. give guarantee on behalf of the Co-operative to secure the performance of an obligation of any person;
 - d. assign, transfer, convey, hypothecate, mortgage, pledge, charge or give security in any manner upon all or any of the real or personal, movable or immovable property, rights, powers, choses in action, or other assets, present or future, of the Co-operative to secure any such securities or other securities of the Co-operative or any money borrowed or to be borrowed or any obligations or liabilities as aforesaid or otherwise of the Co-operative heretofore, now or hereafter made or incurred directly or indirectly or otherwise; and
 - e. without in any way limiting the aforesaid powers, to give security or promises to give security, agreements, documents and instruments in any manner or form under the *Bank Act* or otherwise to secure any money borrowed or to be borrowed or any obligations or liabilities as aforesaid or otherwise of the Co-operative heretofore, now or hereafter made or incurred directly or indirectly or otherwise.
2. Any or all of the foregoing powers may from time to time be delegated by the directors to any one or more of the officers of the Co-operative.
3. This By-law shall remain in force and be binding upon the Co-operative as regards any person acting on the faith thereof until such person has received written notification from the Co-operative that this By-law has been repealed or replaced.
4. The Co-operative may borrow money from its members not being loans made as a condition of membership or as compulsory loans of patronage returns, in such amounts payable on demand or at such times and either without interest or with interest at such rate as the directors may by resolution determine.

INDEPENDENT AUDITORS' REPORT

To the members of
TREC SolarShare Co-operative (No.1) Inc.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of TREC SolarShare Co-operative (No.1) Inc., which comprise the statement of financial position as at December 31, 2022, and the statement of operations and changes in net assets (deficiency) and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of TREC SolarShare Co-operative (No.1) Inc. as at December 31, 2022, and the results of its operations and its cash flows for the year then ended, in accordance with Canadian accounting standards for not-for-profit organizations.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of TREC SolarShare Co-operative (No.1) Inc. in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

INDEPENDENT AUDITORS' REPORT (Continued)

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Co-operative's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Co-operative or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Co-operative's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

INDEPENDENT AUDITORS' REPORT (Continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Co-operative's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Co-operative's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Co-operative to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

STATUS AND NATURE OF ACTIVITIES

TREC SolarShare Co-operative (No. 1) Inc. (the Co-operative and/or SolarShare) is a Non-Profit Co-operative under the Ontario Co-operative Corporations Act.

SolarShare's objective is to promote the development of renewable energy resources in the Province of Ontario.

SolarShare allows Ontarians to invest in renewable energy and help promote its acceptance. Using the SolarShare enterprise model, SolarShare provides triple-bottom line benefits to members by offering the opportunity to invest in a democratically controlled, locally owned organization that owns renewable energy projects and promotes further development of renewable energy resources.

1. ECONOMIC DEPENDENCE

SolarShare is economically dependent on the electricity generated from the solar PV installations (over 99% of revenue) and the continued financing which they currently have in place. The ability of SolarShare to continue as a viable entity is dependent on this financing. The volume of transactions is normal for SolarShare and is consistent with the industry.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

SolarShare has elected to apply the standards in Part III of the Chartered Professional Accountants of Canada (CPAC) Accounting Handbook for Not-For-Profit Organizations (NFPOs) in accordance with Canadian generally accepted accounting principles and includes following significant accounting policies.

Consolidation

These consolidated financial statements include the assets, liabilities, and the results of operations of TREC SolarShare Co-operative (No.1) Inc. and its wholly owned subsidiaries:

- Community Solar Assets 1 Limited - CSA1
- Community Solar Assets 2 Limited - CSA2
- Community Solar Assets 4 Limited - CSA4
- Community Solar Assets 5 Limited - CSA5

Continued...

2. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

These consolidated financial statements also include SolarShare's interest in the following joint ventures:

- TREC SolarShare and 1477400 Ontario Ltd Joint Venture
- Claremont Solar Joint Venture

SolarShare and TREC SolarShare and 1477400 Ontario Ltd Joint Venture are related by means of a 50.9% ownership interest. The purpose of the joint venture is to generate power at two solar projects located in Brampton, Ontario. SolarShare and Claremont Solar Joint Venture are related by means of a 51% ownership interest. The purpose of the joint venture is to generate power at a solar project located in Claremont, Ontario.

The joint ventures have been accounted for using the proportionate consolidation method. All intercompany transactions and balances have been eliminated.

Revenue Recognition

Power Production

SolarShare holds FIT 1 Contracts, FIT 2 Contracts, FIT 3 Contracts and MicroFIT Contracts with the Independent Electricity System Operator (formerly Ontario Power Authority) under Ontario's Feed-In Tariff (FIT) program, which specify tariffs per kilowatt hour for fixed 20 year contracts.

Electricity revenue is recognized based on the electricity produced and delivered to the grid. Revenue is recognized based on energy measured by the Local Distribution Companies (LDCs) as determined by the LDCs meters at periodic dates through the year. Electricity produced from the LDC's last meter reading date to the year end is recognized based on the SolarShare's meters.

Deferred Revenue

SolarShare has received proceeds for hosting a cell system transmitter on a tower at one of the projects and has recorded the payment of future revenue as deferred revenue. Funds are recognized equally on an annual basis over the length of the contract.

Miscellaneous Revenue

Miscellaneous revenue consists of revenue generated from servicing the administrative needs of the Joint Ventures, hosting for an internet provider, from other small services rendered to industry partners, reimbursement for lost revenue and any administrative fees charged to members.

Interest Revenue

Interest revenue is recognized as revenue when earned.

Continued...

2. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Prepaid Leases

Prepaid leases are amortized on a straight-line basis over the life of the lease.

Inventory

Inventory is valued at the lower of cost and net realizable value with cost being determined on the first-in, first-out basis. Inventory is reassessed annually against replacement cost and for any obsolescence. Parts held in inventory are expensed as they are put into service. The write-down of inventory to net realizable value is recognized as an expense in the period the write-down occurs. The reversal of a write-down is recognized as a reduction in expense in the period in which the reversal occurs.

Amortization

Amortization on energy production assets is charged using the straight line method over 20 years from start of commercial operation. Amortization on capital spare inverters is charged using the straight line method over 10 years commencing with the installation date. Amortization commences only after the asset reaches commercial operation.

Capital Assets

SolarShare capitalizes all project-related costs incurred related to the construction and/or purchase of the project. Those costs include equipment costs, soft costs and related financing charges for each project. Spare inverters are capitalized if they are considered standby equipment, are only used in connection with the projects, and expect to be used during more than one period.

Financial Instruments

Recognition of Financial Instruments

SolarShare initially recognizes its financial assets and financial liabilities at fair value, except for certain non-arm's length transactions. SolarShare subsequently recognizes all its financial assets and financial liabilities at amortized cost, except for investments in equity instruments that are quoted in an active market, which are recognized at fair value. Changes in fair value are recognized in net income.

Financial assets measured at cost or amortized include cash, term deposits, accounts receivable and notes receivable. Financial liabilities measured at cost or amortized cost include the accounts payable, notes payable, amounts due to members and long-term debt.

Transaction Costs

SolarShare recognizes its transaction costs in net income in the period incurred. However, the carrying amount of the financial instruments that will not be subsequently measured at fair value is reflected in the transaction costs that are directly attributable to their origination, issuance or assumption.

Continued...

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements requires management to make assumptions about future events that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Significant estimates SolarShare uses are:

1. Accrued energy revenue based on SolarShare's meters
2. Accrued interest payable based on debt instrument involved
3. Accrued site lease expense based on revenue
4. Accrued audit and insurance recorded based on contracts in place.

3. INVENTORY

	2022	2021
	\$	\$
Inventory is comprised as follows:		
Miscellaneous parts	198,835	198,835
Inverter parts	109,600	18,000
Solar panels	8,964	8,610
Sunfield parts	2,747	2,747
Total inventory carried at cost	320,146	228,192

During the year, the change in inventory is recognized in operations and maintenance and the allowance for inventory obsolescence is included therein as follows:

Inventory use	306	1,700
Write down of inventory for obsolescence	-	440
	306	2,140

Continued...

4. LOAN RECEIVABLE

SolarShare has provided a loan to an individual who supplies grass maintenance services to SolarShare for the purpose of expanding the provider's business.

Date	May 29, 2020
Limit	\$26,500
Type	Limited Recourse Grid Note
Description	Payable to TREC SolarShare Co-operative (No.1) Inc. by Gerald Gemmil.
Interest Rate	4% annually, calculated on a daily basis.
Repayment Terms	3 equal payments per year.

5. DEBT SERVICE RESERVE FUND

The debt service reserve fund represents funds held in trust controlled by the Lender, or an institutional trust company as its agent, which may be invested upon direction of CSA1 and CSA2, respectively. Interest earned is recorded as an addition to the reserve fund principal on the CSA1 and CSA2 statements.

The funds are held as security for the financing provided from the Lenders, as described in Note #9.

If CSA1 or CSA2 are unable to meet the debt service coverage ratio of 1.5:1 as outlined in Note #9, the Lender will be empowered to access the funds and withdraw a sufficient amount to meet debt payments, operating costs and working capital requirements.

6. MAINTENANCE RESERVE FUND

Funds in the maintenance reserve fund may be used for major maintenance replacement with the approval of the Lender. CSA1 and CSA2 have begun making contributions to the maintenance fund as per the the borrowing agreement.

	CSA1	CSA2	Total 2022	Total 2021
Debt Service Reserve	169,661	884,188	1,053,849	768,835
Maintenance Reserve	44,312	222,408	266,720	184,052

Continued...

6. MAINTENANCE RESERVE FUND (Continued)

CSA1 has not used any portion of its Maintenance Reserve Fund. CSA2 has used its Maintenance Reserve Fund to finance the purchase of new inverters for one of the projects. These inverters were purchased prior to the end of the useful life of the initial inverters. The original inverters are to be held in inventory and used as rotating stock on the CSA2 sites to reduce downtime as inverters need to be swapped out for repair.

CSA1 Major Maintenance Reserve Accounting	2022	2021
Opening balance	37,738	32,035
Contributions to the Reserve	6,035	5,667
Interested earned in the Reserve	539	36
Major maintenance costs incurred	-	-
Closing balance	44,312	37,738

CSA2 Major Maintenance Reserve Accounting	2022	2021
Opening balance	146,314	72,230
Contributions to the Reserve	74,000	74,000
Interested earned in the Reserve	2,094	84
Major maintenance costs incurred	-	-
Closing balance	222,408	146,314

7. PROJECTS, LAND AND EQUIPMENT

Project Capital Assets Include:

1. Equipment Costs: All purchase and construction costs.
2. Project Costs: Costs relating to project development prior to commercial operation or acquisition including loan interest expenses, legal fees, banking fees, staff time, development fees and engineering studies and reports.
3. Land Assets: Purchases of land associated with or required by project development.

Capital Assets are described in Appendix 1.

8. OPERATIONAL LOANS

Community Solar Assets 4

Date	October 25, 2019
Limit	\$5,000,000
Type	Limited Recourse Grid Note
Description	This note is payable to 227118 Holdings Ltd.
Interest rate	This loan carries an interest rate of 3.5% annually, calculated on a daily basis.
Repayment terms	CSA4 may repay the loan at any time without notice or penalty.
Security	None

	2022	2021
Principal at year end	-	-
Interest in the year	13,990	49,758
Balanced owed at year end	-	-

In the fiscal year, \$920,000 (2021 - \$4,500,000) was called and repaid on the loans.

Continued...

9. DEBT FINANCING

Both CSA1 and CSA2 have secured long term debt against their respective assets as described in the tables below.

	CSA1	CSA2
Type	Term loan	Term loan
Lender	Equitable Life Insurance Company of Canada	CorpFinance International Ltd.
Interest Rate:	4.789% compounded monthly and payable monthly in arrears.	5.262% compounded monthly and payable monthly in arrears.
Term:	February 20, 2015 to February 20, 2031.	September 6, 2017 to March 31, 2033.
Repayment:	Monthly and sculpted over the life of the loan as per the amortization schedule.	Monthly, sculpted and declining rate changing June/December each year for the term of the loan as per the amortization schedule.
Security:	A first-ranking charge and perfected security interest against all assets of CSA1.	A first-ranking charge and perfected security interest against all assets of CSA2.
Debt Service Coverage Ratio (DSCR)	The CSA1 and CSA2 portfolios have non-recourse commercial term loans in place. The terms of the commercial loans require that if the Debt Service Coverage Ratio (DSCR) (calculated on the latest four quarters' results) falls below 1.50, the level of cash reserves must be increased; if the DSCR falls below 1.20, the loan is in default. The following table shows the DSCR ratios for CSA1 and CSA2:	
	CSA1	CSA2
	2022 1.84:1	2022 1.52:1
	2021 1.49:1	2021 1.51:1
	2020 1.69:1	2020 1.51:1
	2019 1.45:1	2019 1.36:1
	2018 1.43:1	2018 1.43:1
	2017 1.64:1	2017 5.27:1
	2016 1.73:1	2016 N/A

As at December 31, 2021, the DSCR was below 1.50:1 for CSA1 and thus subject to deemed compliance per the credit agreements although not to the point of default (1.20:1) of this specific requirement of the respective lender. When the DSCRs are not in compliance but have not defaulted, CSA1 and CSA2 are required to deposit all available cash, post expenses, on a monthly basis, to the Reserve Fund, until the account has a balance equal to 6 months (CSA1) or 12 months (CSA2) worth of scheduled payments or the DSCR is back in compliance.

Continued...

9. DEBT FINANCING (Continued)

As at December 31, 2022, the DSCR was greater than 1.50:1 for both CSA1 and CSA2. Under the terms of the loan, when the DSCR is greater than 1.50:1, a reserve of 3 months (CSA1) or 6 months (CSA2) of principal and interest is set aside.

CSA1	2021	2022	2023	2024	2025	2026	2027

Aug 2011-Oct 2012	Not receipted, co-op exemption	\$156,000

Description: SolarShare is currently issuing one type of Solar Bond.

Security: Solar Bonds are secured by mortgages of the leases of properties where Solar projects are located and by security interests in certain assets of SolarShare and subsidiaries. The security of Solar bonds stand in first position, but behind Long Term Debt in the case of CSA1 and CSA2.

Fair Value of Security: Based on internal valuations, SolarShare is obliged to maintain the net present value of future cashflows net of Debt Financing, in excess of the face value of the outstanding Solar Bonds. Based on internal valuation, estimated net present value of future cash flows net of Debt Financing at December 31, 2022 exceeds outstanding Solar Bonds.

12. DEFERRED REVENUE

The deferred revenue balance relates to a hosting agreement paid by an internet provider as a result of the Dane Tower that exists on the purchased land. The term of the agreement is 7 years of which the revenue was paid upfront. The revenue to be earned in the next 12 months is presented as current. The revenue will be recognized on a straight line basis as follows:

	2019	2020	2021	2022	2023	2024	2025
Revenue	\$4,116	\$4,116	\$4,116	\$4,116	\$4,116	\$4,116	\$4,114
Deferred	\$24,694	\$20,578	\$16,463	\$12,347	\$8,230	\$4,114	\$0

Continued...

13. FINANCIAL INSTRUMENTS

SolarShare is exposed to various risks through its financial instruments. The following represents SolarShare's exposures to risk at December 31, 2022.

Risk Management

SolarShare manages its exposure to risks associated with financial instruments by not dealing in any financial instruments that will have a detrimental effect upon its operating or financial performance. The objective is to avoid exposure to the risks.

Liquidity Risk

Liquidity risk is the risk that SolarShare will not be able to meet a demand for cash or fund its obligations as they come due. Liquidity risk also includes the risk of SolarShare not being able to liquidate assets in a timely manner at a reasonable price.

SolarShare meets its liquidity requirements by preparing and monitoring detailed forecasts of cashflows from obligations, anticipating investing and financing activities, securing access to short term capital and holding assets that can be readily converted into cash.

Credit Risk

SolarShare's credit risk exists with the local distribution companies (LDC). See Appendix 1 for LDCs by project.

Interest Rate Risk

SolarShare has the following investment that earn interest income:

Item	Community Solar Assets 2
Description	Debt Service Coverage Reserve Fund
Invested with	HSBC
Investment	GIC
Term	September 6, 2022 to March 6, 2023
Rate	4.12% per annum
Principal	\$678,964
Maturity Value	\$692,836

Note: The remaining balance of the Debt Service Coverage Reserve Fund is held in a bank account controlled by the lender on behalf of CSA2.

SolarShare also has loan obligations that carry interest including developer loans at 2.5% and 5.5%, operational loans at 3.5% and Solar Bonds payable carry an interest rate of 3%, 4%, 4.5%, 5% and 6%. Interest rates on future bond offerings may vary from rates stated here.

Continued...

13. **FINANCIAL INSTRUMENTS (Continued)**

Fair Value

The fair values of cash, accounts receivable and accounts payable are approximately equal to their carrying value due to their short term nature.

The fair value of notes payable is determined using the present value of future cash flows under current financing agreements, based on market interest rates for loans with similar conditions and maturities.

Change in Risk

There has been no significant change in the SolarShare's risk exposure from the prior year.

14. **CONTRACTUAL OBLIGATIONS**

TREC Renewable Energy Fund

SolarShare has entered into an agreement with TREC to transfer all accounting surplus after allowances for cash flow needs and required maintenance reserves (at the Board's discretion) to a Renewable Energy Fund managed by TREC. Transfers to the fund are subject to the terms and conditions in the agreement. The funds will be reinvested in approved community power projects.

TREC Services

SolarShare has entered into an agreement where TREC will provide some back-office services for the Co-operative according to agreed upon schedules. This Agency Agreement is effective April 1st, 2022 for a term of 12 months.

Community Wealth Co-operative

SolarShare has an agreement with Community Wealth to transfer to them 25% of the surplus resulting from the operations of the eight projects which SolarShare took over from the Green Timiskaming Co-operative. The surplus is to be calculated by SolarShare at the end of the FIT Contracts on these projects.

Continued...

15. DONATED PROPERTY AND SERVICES

During the year, substantial amounts of voluntary services were provided. Because these services are not normally purchased by SolarShare, and because of the difficulty of determining their fair value, donated services are not recognized in these statements.

16. LEASE COMMITMENTS

SolarShare is committed to 20-year lease agreements on each of the properties where it has energy assets located. Future lease obligations are estimated to be as follows:

Lease Commitments	2022 Actual	2023	2024	2025	2026	2027	Future
Operational Projects	595,284	522,375	522,375	522,375	522,375	522,375	3,482,942

A portion of the lease payments are based on percentage 3.3%-10% of gross revenue earned by those projects. Future amounts cannot be estimated at this point and are not included above, while some projects have prepaid leases. These amounts are not included in the future lease obligations above.

17. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform to the current year presentation.

Dear Sirs / Mesdames:

Re: TREC Solarshare Co-operative (No.1)

We refer to the offering statement of TREC Solarshare Co-operative (No.1) dated May 1, 2023 relating to the sale and issue of Solar Bonds.

We consent to being named and to the use in the above-mentioned Offering Statement, of our report dated March 21, 2023, to the members of the Co-operative on the following financial statements:

Statements of financial position as at December 31, 2022 and 2021;

Statements of operations and changes in net assets (deficiency) and cash flows for the years ended December 31, 2022 and 2021 and a summary of significant accounting policies and other significant explanatory information.

We report that we have read the Offering Statement and all information therein and have no reason to believe that there are any misrepresentations in the information contained therein that are derived from the financial statements upon which we have reported or that are within our knowledge as a result of our audit of such financial statements. We have complied with Canadian generally accepted standards for an auditor's consent to the use of a report of the auditor included in an offering document, (Sec 7150 CPA Handbook) which does not constitute an audit or review of the prospectus as these terms are described in the CPA Handbook – Assurance.

Form 10

Co-operative Corporations Act

ARTICLES OF AMALGAMATION

1. The name of the amalgamated co-operative is **TREC SolarShare Co-operative (No. 1) Inc.**
2. The amalgamation agreement has been duly approved as required by section 156 of the *Co-operative Corporations Act*.
3. The names of the amalgamating co-operatives and the dates on which the amalgamation agreement was approved by the members of each of the amalgamating co-operatives are:

Names of Co-operatives	Dates of Members' Approval
TREC SolarShare Co-operative (No. 1) Inc.	June 18, 2014
Waterview Co-operative Limited	Nov. 30, 2014

4. The following is a certified copy of the amalgamation agreement:

See Attached.

These articles are executed in duplicate of delivery to the Minister.

AMALGAMATION AGREEMENT

THIS AGREEMENT made this ^{29th} day of November, 2014,

BETWEEN:

WATerview CO-OPERATIVE LIMITED
("Waterview")

OF THE FIRST PART;

AND

TREC SOLARSHARE CO-OPERATIVE (NO.1) INC.
("SolarShare")

OF THE SECOND PART.

WHEREAS:

- A. Waterview was formed as a result of a continuance granted under the *Co-operative Corporations Act (Ontario)* permitting Waterview Ontario 1 Ltd., a corporation incorporated under the *Business Corporations Act (Ontario)*, to continue as a co-operative effective Oct. 16, 2014. Waterview was converted to a non share co-operative corporation effective Nov. 30, 2014.
- B. SolarShare was incorporated under the *Co-operative Corporations Act (Ontario)* as a Co-operative with share capital effective January 18, 2010. TREC was converted to a non share co-operative corporation effective March 25, 2011.
- C. Waterview and SolarShare have agreed to amalgamate and continue as one co-operative corporation without share capital pursuant to the provisions of section 156 of the *Co-operative Corporations Act (the "Act")*.

NOW THEREFORE this Agreement witnesseth as follows:

1. In this Agreement, the term "Amalgamated Co-operative" shall mean the corporation continuing from the amalgamation of the parties hereto.
2. The parties hereto agree to amalgamate under the provisions of section 156 of the Act, and to continue as one corporation under the terms and conditions hereinafter set out and, accordingly, to file the Articles of Amalgamation and other such documents as may

be required to give effect to the amalgamation under the Act.

3. The name of the Amalgamated Co-operative shall be TREC SOLARSHARE CO-OPERATIVE (NO.1) INC.
4. The head office of the Amalgamated Co-operative shall be situated at 401 Richmond Street West, Suite 240, Toronto, in the Province of Ontario.
5. The special provisions of the Amalgamated Co-operative shall be as follows:
 - a. The Co-operative's activities shall be carried on without the purpose of gain for its members and any profit or other accretion to the Co-operative shall be used in promoting its objects;
 - b. The directors, and those directors who also serve as officers, shall serve as officers and directors without remuneration and no director or officer shall directly or indirectly receive any profit or remuneration from his or her position as director or in any other capacity, provided that a director, including those who are also officers, may be paid reasonable expenses incurred by them in the performance of his or her duties;
 - c. Upon dissolution of the Co-operative, and after payment of all debts and liabilities, the remaining property of the Co-operative shall be distributed or disposed of to non-profit co-operatives with similar objectives; and
 - d. The object of the Co-operative is to promote the development of renewable energy resources in the Province of Ontario
6. The business of the Co-operative is restricted to:
 - a. Generating, within the meaning of *Electricity Act, 1998*, as amended, electricity from one or more sources that are renewable energy sources for the purposes of that *Act*, and
 - b. Selling, as a generator within the meaning of that *Act*, electricity it produces from one or more renewable energy sources.
7. The amount of the membership fee is to be established by resolution of the board of directors from time to time
8. No member loan may be transferred without the consent of directors, to be signified by a resolution of the board of directors.
9. No securities shall be issued and no assets shall be distributed by the Amalgamated

Co-operative in conjunction with the amalgamation.

10. The by-laws of the Amalgamated Co-operative are to be those of SolarShare, until repealed, amended, altered, or added to in accordance with the Act.
11. The first directors of the Amalgamated Co-operative shall be those directors of SolarShare at the time the amalgamation takes effect. *See the attached list.*
12. The said first directors shall hold office until their terms of office would otherwise have expired in accordance with the by-laws. The subsequent directors of the Amalgamated Co-operative shall be elected in accordance with the by-laws and the Act.
13. The officers of the Amalgamated Co-operative shall, until changed by the directors, be the officers of SolarShare, in office immediately before the amalgamation of the parties hereto. The subsequent officers of the Amalgamated Corporation shall be elected in accordance with the by-laws of the Amalgamated Co-operative and the Act.
14. Each party shall contribute to the Amalgamated Co-operative all of its assets, subject to its liabilities.
15. Upon the Board of Directors of both parties approving the amalgamation and it being approved by two-thirds of the votes cast at a general meeting of the members of both parties called for the purpose of considering the Agreement pursuant to section 156 of the Act, Articles of Amalgamation in the prescribed form shall be submitted in accordance with the Act.

16. *This amalgamation shall be effective January 1, 2015*
IN WITNESS WHEREOF the parties hereto have hereunto affixed their respective corporate seals, attested by the hands of the respective officers duly authorized in that behalf on the day and year first written above.

SCHEDULE K – TERMS OF RENEWABLE ENERGY FUND AGREEMENT

1. Definitions

The following terms shall have the meanings set out below:

Solar Bonds mean those bonds issued by SolarShare to its members for the purpose of raising the capital required for its renewable energy projects.

Investment Committee means the committee that decides which projects the monies from the Surplus Fund will be invested in, as described in paragraphs 2 and 3.

Renewable Energy Project means any project for the generation of renewable energy undertaken by SolarShare, as approved by the Investment Committee.

Accounting Surplus means any surplus that SolarShare accumulates as calculated using Canadian generally accepted accounting principles for not-for-profits.

Renewable Energy Fund means the fund that has been created from the surpluses of SolarShare, and any other organization, and is dedicated to investing in the development of renewable energy projects.

Surplus Mortgage means the mortgage securing SolarShare's obligations under this Agreement against the real and personal property of the SolarShare, referred to in paragraph 2.

2. TREC's Obligations

TREC agrees that the Renewable Energy Fund will only be applied to projects that have been approved by the Investment Committee

TREC agrees that an agent of SolarShare will have at a minimum at least one permanent seat on the Investment Committee, and up to 50% of the seats on the Investment Committee if and when SolarShare's contribution to the fund is 50% or greater than the total fund amount. Committee seats will be redistributed annually, based on the proportion of investment from the participating co-ops.

TREC agrees that 100% of the sums received by it from SolarShare pursuant to paragraph 3 shall be allocated to:

- Acquiring and/or developing renewable energy projects and to use for educational programming.

TREC shall provide annually and upon request, information as to loans requested by other co-operatives, projects approved, money available for such purpose, and projected cash flows, in order that SolarShare may plan its capital needs in full knowledge of the amounts and timing of financial support from TREC.

TREC shall maintain the books and records related to the Renewable Energy Fund in a form satisfactory to SolarShare and shall permit representatives of SolarShare to have access for inspection of such books and records at all reasonable times.

TREC agrees to postpone its security to any

- bona fide arm's length third party loan entered into by SolarShare for the purpose of providing financing for the development and construction of a Renewable Energy Project, and
- security for the repayment of Solar Bonds issued by the SolarShare to its members.

3. SolarShare's Obligations

SolarShare shall at all times remain a non-profit co-operative incorporated under the Co-operative Corporations Act (Ontario) whose membership is comprised primarily of those persons who have purchased Community Solar Bonds from SolarShare.

SolarShare shall record its accounting surplus annually as a liability to TREC to be placed into the Renewable Energy Fund. That liability shall be paid out to TREC in cash after the following items:

- SolarShare shall retain enough cash in its accounts to support its reasonable working capital needs
- SolarShare shall retain sufficient cash in its accounts to pay down member loans and/or bank debt as it deems necessary
- SolarShare shall retain sufficient cash to retire member solar bonds as it deems necessary

All residual cash shall be paid to TREC to be placed in the Renewable Energy Fund as settlement of the liability.

Any accounting losses shall serve to reduce the liability referred to above.

SolarShare shall forthwith upon acquisition of a Renewable Energy Project site charge the Land as security for the performance of its obligations under this Agreement by delivering and registering a charge on the title to the site in favour of TREC, in form satisfactory to TREC, subordinated to the Solar Bondholders.

4. General

Any notice, direction or other instrument required or permitted to be given by either party under this Agreement shall be in writing and shall be sufficiently given if delivered personally, sent by prepaid first-class mail or transmitted by telecopy or other form of electronic communication during the transmission of which no indication of failure of receipt is communicated to the sender:

Any such notice or other communication delivered personally or by facsimile machine shall be deemed to have been given and received on the date of delivery provided that if such day is not a working day, such notice or other communication shall be deemed to have been given and received on the next following working day.

Notice shall be given as follows:

SOLARSHARE

401 Richmond St, Suite 240
Toronto Ontario M5V 3A8

Attention: Michael Brigham, President

Telephone: 416-694-4482

TREC

401 Richmond St, Suite 240

Toronto Ontario M5V 3A8

Attention: Executive Director

Telephone: 416-977-5093

No waiver or neglect to enforce any right or remedy in respect of any breach of any covenant or agreement contained in this Agreement shall be deemed to be a waiver of any subsequent breach of the same or any covenant or agreement contained in this Agreement.

This Agreement shall endure to the benefit of and be binding upon the parties to this Agreement and their respective successors and permitted assigns.

This Agreement may not be assigned without the consent of the other party to this Agreement.

This Agreement shall be construed in accordance with the laws of the Province of Ontario.

The terms of this Agreement are intended by the parties as a final expression of their agreement and may not be contradicted by evidence of any prior or contemporaneous agreement. This Agreement constitutes the complete and exclusive statement of its terms.

If any provision of this Agreement, or its application to any person or in any circumstances, shall, to any extent, be invalid or unenforceable, the remainder of this Agreement, or the application of such a provision to persons or in circumstances other than those as to, or in which, it is invalid or unenforceable, shall not be affected thereby, and each provision of this Agreement shall be valid and be enforced to the full extent permitted by law.

Neither party has made any representations or warranties with respect to the subject matter of this Agreement, except as expressly set forth in this Agreement.

Nothing in this Agreement shall be construed to constitute either of the parties, a partner, agent or representative of the other or to create any commercial or other partnership between the parties.

This Agreement shall operate and remain in full force and effect from and after the date of this Agreement and for so long as there is a loan or other contract remaining in force between the parties.

The parties shall execute such further and other documents and assurances as may be necessary to further the intent of this Agreement.

SCHEDULE L – 227118 HOLDINGS LTD. OPERATING (CREDIT) LINE

LIMITED RECOURSE GRID NOTE

Dated at Toronto this 11 day of April, 2023

AMOUNT: \$ 475,000 CAD (the **Initial Amount**)

DUE: On Demand with 60 days notice

1. Promise

FOR VALUE RECEIVED, Community Solar Assets 4 Ltd. (**CSA4**) promises to pay within sixty days of delivery of a written demand for payment to the order of 227118 Holdings Ltd. (the **Lender**) in lawful money of Canada, the principal amount outstanding, being the Initial Amount, as reduced by repayment or increased by further advances made by the Lender as recorded on the Grid (see para. 7), with interest on the principal outstanding calculated as described below.

2. Limit of Loan

The Initial Amount of the loan as described may be increased by further advances as requested by CSA4 but can not exceed five million dollars CAD (**\$5,000,000**) under this agreement. Should funding above this limit be required a new agreement must be drafted.

3. Interest Calculation

Interest on the principal at the interest rate set out in paragraph 4 shall accrue daily, not be compounded and be calculated monthly. Interest will be paid semi-annually on dates established by CSA4, from the date the funds were advanced. Interest shall be computed on the actual number of days elapsed on the basis of a 365 day year. CSA4 will pay the principal amount outstanding and all accrued interest on the due date above.

4. Interest Rate

Interest shall be payable on the principal amount outstanding at the Royal Bank prime rate minus 1.20%, as determined on the last day of each month, but in any case shall be no lower than 3.5%.

5. Right to Prepay

The indebtedness under this Grid Note may be prepaid by CSA4 in its sole discretion in full at any time, without penalty, including interest accrued to the date of prepayment.

6. Lender's Demand

The Lender may demand repayment with 60 days' notice. Notwithstanding the Lender's demand for payment, payment may be deferred by CSA4 if such payment would, in its opinion, jeopardize CSA4's ability to meet its other obligations as they fell due, and no replacement capital can be reasonably found.

7. Grid Entries

The Lender authorizes CSA4 to manage the calculation of principal with respect to advances or repayments and confirm on a monthly basis with the Lender that the balance of the loan at month

end is agreed between the parties. The Grid Note attached to this agreement will be updated by CSA4 and provided to the Lender as requested.

8. Waiver

CSA4 waives presentment for payment, demand, notice and protest and all defences based on giving of time and expressly agrees that no renewal or extension granted, nor any other indulgence shown nor any release or discharge of or any dealings between the Lender and CSA4, shall discharge, extend or in any way affect the obligations of CSA4.

No waiver, consent or amendment with respect to this Grid Note shall be binding unless it is in writing and signed by the Lender. Failure of the Lender to exercise any of the its rights and remedies shall not constitute a waiver of any provision of this Grid Note, or of any of such Lender's rights and remedies, nor shall it prevent the Lender from exercising any rights or remedies with respect to the subsequent happening of the same or similar circumstances. All remedies of the Lender shall be cumulative to the maximum extent permitted by law.

CSA4 agrees that it shall remain liable in respect of this Grid Note as if presentment, demand, notice of dishonour and protest had been duly made or given.

Community Solar Assets 4 Ltd.

I have authority to bind the Corporation

SCHEDULE M – BOARD AND COMMITTEE ROLES AND RESPONSIBILITIES

SolarShare Board

The role of the Board is to supervise the management of SolarShare’s business and affairs to fulfill the mission. The Board is generally not responsible for the day-to-day management and operation of the SolarShare’s business, as this responsibility has been delegated to management; however, Board members may contribute to operational roles as needed. Management’s role is to conduct the day-to-day operations in a way that is consistent with the strategic priorities and by-laws approved by the Board. The Board is responsible for supervising management in carrying out this responsibility.

The directors of the Board, in exercising their powers and discharging their duties, shall act honestly and in good faith with a view to the best interests of SolarShare and exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

As part of its stewardship responsibility, the Board advises management on significant business issues and has the scope of responsibilities outlined in the table below; however, Board members may play a more involved role in the day to day operations of SolarShare.

Table 14: Board Roles and Responsibilities

SCOPE	MEMBERS	MEETING FREQUENCY
Support the development of mission, by-laws and strategic plan Understand and address organizational risks and evaluate performance Secure and ensure effective ongoing senior management Maintain effective partnerships, reporting and communication	Chair: 1 year term Members: Mike Brigham (President), Ron Seftel (Treasurer), Shama Ahmed, Pieter de Koning, Glen Campbell (Chair), Patrick Collie, Graysanne Bedell, Ashley Reid, Doug Finley	Monthly, plus AGM and Strategic Planning Session 5 hours per month, 4 hours per AGM and 8 hours for Strategic Planning

SolarShare Committees

The Board discharges some of its responsibilities directly and discharges others through committees. The Board may assign to any committee the prior review of any issues the Board is responsible for. Committee recommendations are subject to Board approval. The Board is to be informed of any committee recommendations at the regular Board meeting next following such decision.

The Board establishes standing or ad-hoc committees to address issues that are too complex and/or numerous to be handled by the entire Board. Committees are deployed only as necessary, and the purpose and scope of each is carefully defined.

Staff provides communication and administrative support by organizing the agenda and materials in consultation with the committee chair prior to each meeting and taking meeting minutes. The committee chair reports to Board and brings specific items to the Board for approval or information.

Committees nominate and the Board appoints all members and chairs. Committees are composed of both directors and other member volunteers.

Table 15: Committee Roles and Responsibilities

SCOPE	MEMBERS	MEETING FREQUENCY
<p>Finance and Planning Committee (Standing):</p> <p>Oversees the development of the detailed annual budget;</p> <p>Ensures accurate financial tracking, monitoring and accountability;</p> <p>Monitors long term financial projections for SolarShare’s business;</p> <p>Reviews bond sales and interest, long term debt and associated terms;</p> <p>Supports the development of offering statements and financial products;</p> <p>Supports valuation and other financial matters;</p> <p>Works with the New Business and Operations and Maintenance Committees to assess and recommend purchase of new solar or other significant assets; and</p> <p>Works with the Marketing Committee on product offering review and development.</p>	<p>Chair: Doug Finley</p> <p>Members: Glen Campbell, Mike Brigham, Thomas Haubenreisser, Ron Seftel, David Robertson, Ashley Reid, Amy Zhang</p>	<p>Monthly, and as required</p> <p>3 hours per month</p>

SCOPE	MEMBERS	MEETING FREQUENCY
<p>Operations and Maintenance Committee (Standing)</p> <p>Oversees negotiation of contracts with third party service providers;</p> <p>Monitors expenditures and annual budgeting for maintenance;</p> <p>Reports to the Board regularly regarding generation and maintenance expenditures against budget;</p> <p>Provides guidance to O&M staff and oversight over maintenance, service calls, warranty work, insurance claims, purchasing and inventory,</p> <p>Seeks ways of improving revenues via system performance and reducing maintenance costs; and,</p> <p>Works with the Finance Committee to project long term revenues and operating and maintenance expenses.</p>	<p>Chair: Mike Brigham</p> <p>Members: David Crockett, Imran Atcha, Brian Ross, Patrick Collie, Pieter de Koning</p>	<p>Weekly, and as required</p> <p>3 hours per month</p>
<p>Human Resources Committee (Ad Hoc)</p> <p>Oversees employee performance reviews;</p> <p>Conducts the performance review of General Manager;</p> <p>Provides input to human resources materials such as policies, performance review and work plan templates as necessary;</p> <p>Recommends employee hiring, discipline and termination;</p> <p>Recommends employee compensation and benefits; and</p> <p>Provides guidance regarding specific human resources issues.</p>	<p>Chair: Shama Ahmed</p> <p>Members: Jen Aitchison, Ashley Reid</p>	<p>As required</p> <p>2 hours per meeting</p>

SCHEDULE N – SOLARSHARE MEMBERS

SolarShare has a diverse membership comprised of more than 2,100 individuals and institutions who have invested \$75 million in Solar Bonds, earning more than \$12 million in interest.

Figure 11: SolarShare members advocating for renewable energy.

- 20% of our members are under 40 years of age
- 90% are University educated
- 80% feel they have the power to create positive change in their community
- 22% hold their Solar Bonds in a registered Plan

Ontario residents and institutions invest in SolarShare seeking to:
